INVITATION TO SHAREHOLDERS

Dear Shareholders,

On behalf of the board of directors (the “**Board**”) of Valeura Energy Inc. (“**Valeura**”, the “**Corporation**”, “**we**” or “**our**”), we are pleased to provide you with the accompanying information circular (the “**Information Circular**”) and invite you to our annual and special meeting of the holders (“**Shareholders**”) of common shares (“**Common Shares**”) in the capital of the Corporation to be held on May 9, 2024 at 4:00 p.m. (Calgary time) (the “**Meeting**”). The Meeting will be held at the Cardium Room of the Calgary Petroleum Club, 319 –5th Avenue SW, Calgary, Alberta, Canada T2P 0L5.

The Information Circular provides important information about the business of the Meeting and the voting process and Valeura’s approach and decisions made in respect of executive compensation and corporate governance practices. Please take the time to read the Information Circular and, if you cannot attend the Meeting, please complete the accompanying form of proxy (in the case of registered Shareholders) or voting instruction form (in the case of beneficial Shareholders) in order for your vote to be counted at the Meeting.

Valeura’s goal is to deliver long-term value to Shareholders and other stakeholders, underpinned by a strategy to create value through growth. On this path, the Board and management team pay specific attention to safety, environment, social and governance (“**ESG**”) management and enterprise risk management, which we believe are fundamental dimensions to value creation and the long-term sustainability of Valeura’s business.

Recent Accomplishments

Valeura’s decision to pivot to Southeast Asia in 2021 has continued to deliver strong growth and value creation in 2023, as outlined in the table below. Specifically, since the end of 2021, the price per Common Share on the Toronto Stock Exchange (the “**TSX**”) has increased from CAD\$0.44 to CAD\$4.33, as of closing on March 25, 2024 (the record date for the Information Circular (the “**Record Date**”). This increase represents a more than 900% increase, making Valeura not just a top performer on the TSX, but one of the top performing oil and gas companies globally over this period. The increase in the Common Share price was not the result of a single transaction, but rather the result of the past success of the Corporation in creating value through acquisitions and now continuing to add value through operations.

After the sale of Valeura’s shallow gas production business in Turkey in 2021, Valeura exited 2021 with \$40.8 million in cash and a non-producing, deep gas exploration/appraisal asset. In a remarkable transformation, leveraging the extensive Southeast Asia regional experience of our President and Chief Executive Officer (the “**CEO**”), Dr. Sean Guest, Valeura completed its first acquisition of producing oil assets from KrisEnergy (Asia) Ltd. in June 2022 in the Gulf of Thailand (the “**KrisEnergy Acquisition**”). The KrisEnergy Acquisition was followed by a much larger acquisition of producing oil assets, also in the Gulf of Thailand, from Mubadala Energy, which closed in March 2023 (the “**Mubadala Acquisition**” and together with the KrisEnergy Acquisition, the “**Acquisitions**”). These Acquisitions were completed with cash on hand and a temporary debt facility, which the Corporation fully repaid in October 2023.

Metric	2021	2022	2023	2023 Accomplishments
Operated assets #	1	2	5	Acquired the Manora (70%), Jasmine / Ban Yen (100%) & Nong Yao (90%) oil fields in 2023 under the Mubadala Acquisition, adding to the Wassana oil field (100%), which was acquired in 2022 under the KrisEnergy Acquisition.
Annual Production ⁽¹⁾ bbls/d (Gross WI)	322	0	20,440	Within 2023 guidance range.
YE 2P Reserves ⁽²⁾ MMbbls (Gross WI)	0	6	38	2P reserves replacement ratio of 219% in 2023.
Adjusted Cash Flow From Operations ⁽³⁾ \$ million	0	(14)	152	Efficiencies allowed Valeura to deliver opex and capex below guidance.
Year End Cash \$ million	41	17	151	Valeura fully repaid its debt in Q4 2023.
Common Share Price (December volume weighted share price (VWAP)) CAD\$/Common Share ⁽⁴⁾	0.44	1.60	3.17	Valeura was the #1 company in its performance peer group for both the year ended December 31, 2022 and 2023. The Common Share price as of closing on the Record Date was CAD\$4.33.

Notes:

- (1) Annual Production is average working interest (“WI”) production before royalties for the 12-month period ending December 31, 2023 (proforma production for Q1 2023). For 2023, the amount is proforma for the four assets acquired in the Mubadala Acquisition on March 22, 2023.
- (2) Year-end proved plus probable (“2P”) gross WI reserves before royalties. 2P reserves replacement of 219% in 2023 is based on proforma year-end (“YE”) 2022 2P reserves of 29.1 MMbbls including assets acquired from Mubadala Energy as announced on December 6, 2022, which closed on March 22, 2023. 1P reserves replacement in 2023 was also 219%.
- (3) Non-IFRS financial measure which does not have a standardised meaning prescribed by IFRS. Please see “Non-IFRS measures” in the Corporation’s management’s discussion & analysis for the year ended December 31, 2023 (the “MD&A”) for more information and reconciliation. A copy of the MD&A is available from the Corporation’s profile on SEDAR+ at www.sedarplus.ca.
- (4) Quoted Yearend Common Share price is the volume weighted average price (“VWAP”) of the Common Shares on the TSX for the month of December of the applicable year.

The pivot to Southeast Asia made it desirable to locate Valeura’s executive team in the region, with the executive office moving from Calgary to Singapore and the consolidation of operational staff in Bangkok. Our CEO relocated to Singapore in early 2023 and has led the recruitment of a number of seasoned executives with deep experience in the region. New executives include Yacine Ben-Meriem (Chief Financial Officer), Dr. Greg Kulawski (Chief Operating Officer), Kelvin Tang (Executive Vice-President, Corporate, General Counsel and Corporate Secretary), and Dr. Ian Warrilow (Thailand Country Manager). A more complete description of our new executives’ experience is included in the Information Circular.

Valeura values the benefits of building a diverse Board, not just in terms of gender and ethnicity but also diversity of experience including business sectors and geographics, as described in the Corporation’s Diversity Policy. Valeura’s seven-person Board has been reshaped to include two new regional non-employee directors, Anna Green who is based in Singapore and Lina Lee who is based in Hong Kong. Ms. Green’s and Ms. Lee’s extensive executive experience in Southeast Asia will be invaluable as the Corporation targets further growth in the region. The additions of Ms. Green and Ms. Lee to the Board was designed to complement the three Canada-based and one UK-based non-employee directors, together with the Singapore-based CEO who serves as executive director. The Board is now 29% comprised of females and/or diverse individuals.

The transformation of Valeura to the largest independent oil producer in Thailand prompted an in-depth review of Valeura’s executive compensation programme throughout 2022 and 2023. The results of this

review indicated the need for Valeura to restructure its compensation programme in 2023 to better reflect executive compensation practices for international peer companies with executives domiciled outside Canada, particularly reflecting the best market practices in Southeast Asia. As a result of the increased corporate size and complexity of Valeura from its transition to Southeast Asia, non-employee director compensation was reviewed and changes were also made in 2023.

Details of these compensation programme changes are included in the “*Letter to Shareholders from the Chair of the Governance, Nominating and Compensation Committee*” and the “*Compensation, Discussion and Analysis*” sections contained in the Information Circular. Of particular note are changes to the Corporation’s equity compensation, including the phase-out of stock option awards to executives and non-employee directors, the first issuance of performance share unit awards and restricted share unit awards to executives under Valeura’s performance and restricted share unit plan, and the adoption and first issuance of deferred share unit awards under a new cash-settled deferred share unit plan. We believe these changes better reflect best practices in executive and non-employee director compensation.

Looking Forward

We are confident Valeura is well positioned to continue to progress our strategy to create value through growth. We have established a strong asset portfolio in Thailand with significant upside that we will pursue with an active drilling and development programme to extend the reserves life of existing fields and capture step-out and near-field exploration opportunities. In addition, we will continue to pursue accretive inorganic growth opportunities in the region supported by an executive team with deep mergers and acquisitions experience and demonstrated ability to transact. We are committed to safe and sustainable operations and will continue to mature our ESG programmes. Our inaugural Sustainability Report will be released in 2024 and will provide more detail on our progress and commitments.

On behalf of the Board and management team, we would like to thank you, the Shareholders, and all other stakeholders for your continued support.

Sincerely,

APPOINTMENT AND REVOCATION OF PROXIES

Enclosed herewith is a form of proxy for use at the Meeting. The persons named in the form of proxy are directors and/or officers of Valeura. **A Shareholder submitting a proxy has the right to appoint a nominee (who need not be a Shareholder) to represent such Shareholder at the Meeting other than the persons designated in the enclosed form of proxy by inserting the name of the chosen nominee in the space provided for that purpose on the form of proxy and by striking out the printed names.**

A form of proxy will not be valid for the Meeting or any adjournment(s) or postponement(s) thereof unless it is signed by the Shareholder or by the Shareholder's attorney authorised in writing or, if the Shareholder is a corporation, it must be executed by a duly authorised officer or attorney thereof. The proxy, to be acted upon, must be deposited with Computershare Trust Company of Canada, the registrar and transfer agent of the Corporation, at Computershare Trust Company of Canada, Proxy Dept., 100 University Avenue, 8th Floor, Toronto, Ontario, Canada, M5J 2Y1, or by facsimile at 1-866-249-7775, by no later than 4:00 p.m. (Calgary time) on May 7, 2024 or two business days preceding the date of any adjournment or postponement.

A Shareholder who has given a proxy may revoke it prior to its use, in any manner permitted by law, including by an instrument in writing executed by the Shareholder or by his or her attorney authorised in writing or, if the Shareholder is a corporation, executed by a duly authorised officer or attorney thereof and deposited at the registered office of the Corporation at any time up to and including the last business day preceding the day of the Meeting or any adjournment or postponement thereof, at which the proxy is to be used or with the chairman of the Meeting on the day of the Meeting or any adjournment or postponement thereof.

ADVICE TO BENEFICIAL HOLDERS OF COMMON SHARES

The information set forth in this section is of significant importance to many Shareholders, as a substantial number of Shareholders do not hold Common Shares in their own name. Shareholders who do not hold their Common Shares in their own name (“**Beneficial Shareholders**”) should note that only proxies deposited by Shareholders whose names appear on the records of Valeura as the registered Shareholders can be recognised and acted upon at the Meeting. If Common Shares are listed in an account statement provided to a Shareholder by a broker, then in almost all cases those Common Shares will not be registered in the Shareholder’s name on the records of Valeura. Such Common Shares will more likely be registered under the names of the Shareholder’s broker or an agent of that broker. In Canada, the vast majority of such shares are registered under the name of CDS & Co. (the registration name for CDS Clearing and Depository Services Inc., which acts as nominee for many Canadian brokerage firms). Common Shares held by brokers or their agents or nominees can only be voted (for or against resolutions) upon the instructions of the Beneficial Shareholder. Without specific instructions, brokers and their agents and nominees are prohibited from voting Common Shares for the broker’s clients. **Therefore, Beneficial Shareholders should ensure that instructions respecting the voting of their Common Shares are communicated to the appropriate person.**

Applicable regulatory policy requires intermediaries/brokers to seek voting instructions from Beneficial Shareholders in advance of Shareholders’ meetings. Every intermediary/broker has its own mailing procedures and provides its own return instructions which should be carefully followed by Beneficial Shareholders in order to ensure that their Common Shares are voted at the Meeting. Often, the form of proxy supplied to a Beneficial Shareholder by its broker is identical to the form of proxy provided to registered Shareholders; however, its purpose is limited to instructing the registered Shareholder how to vote on behalf of the Beneficial Shareholder. The majority of brokers now delegate responsibility for obtaining instructions from clients to Broadridge Financial Solutions, Inc. (“**Broadridge**”). Broadridge typically mails a scannable voting instruction form in lieu of the form of proxy. The Beneficial Shareholder is requested to complete and return the voting instruction form to them by mail or facsimile. Alternatively, the Beneficial Shareholder can call a toll-free telephone number or visit Broadridge’s dedicated voting website at www.proxyvote.com to vote the Common Shares held by the Beneficial Shareholder. Broadridge then tabulates the results of all instructions received and provides appropriate instructions respecting the voting of Common Shares to be represented at the Meeting. A Beneficial Shareholder receiving a voting instruction form cannot use that voting instruction form to vote Common Shares directly at the Meeting as the voting instruction form must be returned as directed by Broadridge well in advance of the Meeting in order to have the Common Shares voted.

Although a Beneficial Shareholder may not be recognised directly at the Meeting for the purposes of voting Common Shares registered in the name of his or her broker (or agent of the broker), a Beneficial Shareholder may attend the Meeting as proxyholder for a registered Shareholder and vote the Common Shares in that capacity. Beneficial Shareholders who wish to attend the Meeting and indirectly vote their Common Shares as proxyholder for a registered Shareholder should enter their own names in the blank space on the instrument of proxy provided to them and return the same to their broker (or the broker’s agent) in accordance with the instructions provided by such broker (or agent), well in advance of the Meeting.

VOTING BY INTERNET FOR REGISTERED HOLDERS OF COMMON SHARES

Shareholders may use the website at www.investorvote.com to transmit their voting instructions. Shareholders should have the form of proxy in hand when they access the website. Shareholders will be prompted to enter their control number, which is located on the form of proxy. If Shareholders vote by internet, their vote must be received not later than 4:00 p.m. (Calgary time) on May 7, 2024 or 48 hours

prior to the time of any adjournment or postponement of the Meeting. **The website may be used to appoint a proxy holder to attend and vote on a Shareholder’s behalf at the Meeting and to convey a Shareholder’s voting instructions. Please note that if a Shareholder appoints a proxy holder and submits their voting instructions and subsequently wishes to change their appointment, a Shareholder may resubmit their proxy and/or voting direction, prior to the deadline noted above. When resubmitting a proxy, the most recently submitted proxy will be recognised as the only valid one, and all previous proxies submitted will be disregarded and considered as revoked, provided that the last proxy is submitted by the deadline noted above.**

VOTING OF PROXIES

All Common Shares represented at the Meeting by properly executed proxies will be voted on any matter that may be called for and, where a choice with respect to any matter to be acted upon has been specified in the accompanying form of proxy, the Common Shares represented by the proxy will be voted in accordance with such instructions. **In the absence of any such instruction, the persons whose names appear on the printed form of proxy will vote in favour of all the matters set out thereon. The enclosed form of proxy confers discretionary authority upon the persons named therein. If any other business or amendments or variations to matters identified in the Notice of Meeting properly comes before the Meeting, then discretionary authority is conferred upon the person appointed in the proxy to vote in the manner they see fit, in accordance with their best judgment.**

At the time of the printing of this Information Circular, the management of Valeura knew of no such amendment, variation or other matter to come before the Meeting other than the matters referred to in the Notice of Meeting.

VOTING SHARES AND PRINCIPAL HOLDERS THEREOF

The board of directors of Valeura (the “**Board**”) has fixed March 25, 2024 as the record date (the “**Record Date**”) for the Meeting. Shareholders at the close of business on the Record Date are entitled to receive notice of the Meeting and to vote thereat or at any adjournment(s) or postponements(s) thereof on the basis of one vote for each Common Share held, except to the extent that: (i) a registered Shareholder has transferred the ownership of any Common Shares subsequent to the Record Date; and (ii) the transferee of those Common Shares produces properly endorsed share certificates, or otherwise establishes that he or she owns the Common Shares and demands, not later than 10 days before the Meeting, that his or her name be included on the list of persons entitled to vote at the Meeting, in which case, the transferee shall be entitled to vote such Common Shares at the Meeting.

As of the date hereof, 103,657,326 Common Shares were issued and outstanding as fully paid and non-assessable.

As of the date hereof, to the knowledge of the directors and executive officers of Valeura, there are no persons or companies who beneficially own, directly or indirectly, or control or direct Common Shares carrying 10% or more of the voting rights attached to all of the Common Shares, except as set forth below.

Name	Number of Common Shares Held or Controlled	Percentage of Common Shares Held or Controlled
Baillie Gifford & Co	18,419,707	17.8%
Thoresen Thai Agencies Public Company Limited	13,425,100	13.0%

As of the date hereof, the directors and executive officers of Valeura, as a group, beneficially own, directly

or indirectly, 5,883,579 Common Shares representing approximately 5.7% of the issued and outstanding Common Shares.

As of the date hereof, the directors and executive officers of Valeura, as a group, own 3,765,000 options (“**Options**”) to purchase 3,765,000 Common Shares issuable pursuant to the Corporation’s stock option plan (the “**Option Plan**”) and representing approximately 3.5% of the issued and outstanding Common Shares (on a partially diluted basis).

As of the date hereof, 966,524 performance share units (“**PSUs**”) and 532,909 restricted share units (“**RSUs**”, and collectively with the PSUs, “**Unit Awards**”) have been issued pursuant to the Corporation’s performance and restricted share unit plan (the “**PRSU Plan**”) and representing approximately 1.4% of the issued and outstanding Common Shares (on a partially diluted basis).

MEETING MATTERS

Receipt of the Financial Statements and Auditors’ Report

The audited financial statements of the Corporation for the period ended December 31, 2023 and the report of the auditors thereon will be placed before the Shareholders at the Meeting.

Under National Instrument 51-102 - *Continuous Disclosure Obligations* (“**NI 52-102**”), a person or corporation who in the future wishes to receive financial statements from the Corporation must deliver a written request for such material to the Corporation, together with a signed statement that the person or corporation is the owner of securities (other than debt instruments) of the Corporation. Shareholders who wish to receive financial statements are encouraged to send the enclosed return card, together with the completed form of proxy to Computershare Trust Company of Canada, Proxy Dept., 100 University Avenue, 8th Floor, Toronto, Ontario, Canada, M5J 2Y1.

Copies of the Corporation’s annual and interim financial statements are also available on SEDAR+ at www.sedarplus.ca.

Appointment of Auditors

At the Meeting, Shareholders will be asked to pass a resolution appointing Deloitte & Touche LLP (Singapore) (“**Deloitte**”), Chartered Accountants, as auditors of the Corporation, to hold office until the next annual meeting of Shareholders and to authorise the Board to fix the remuneration to be paid thereto.

With the executive move to Asia, the Corporation appointed Deloitte as auditors of the Corporation effective July 3, 2023, replacing KPMG LLP (“**KPMG**”), who resigned June 30, 2023 at the request of the Corporation. In accordance with NI 52-102, the Corporation filed a reporting package with respect to its change of auditor under the Corporation’s profile on SEDAR+ on July 3, 2023 (the “**Change of Auditor Reporting Package**”) in which the Corporation confirmed that:

- (a) KPMG has not expressed a modified opinion in its auditor’s reports on the Corporation’s financial statements for the two most recently completed fiscal years ended December 31, 2022 and 2021; and
- (b) in the opinion of the Audit Committee and the Board of Directors of the Corporation, there were no “reportable events”, including disagreements, consultations or unresolved issues, as such terms are defined in NI 51-102.

The Change of Auditor Reporting Package includes a notice from the Corporation regarding the change of auditor, a letter from the Corporation’s former auditor, KPMG, and a letter from Deloitte, as successor auditor. The Change of Auditor Reporting Package is attached to this Information Circular as Appendix C.

Election of Directors

The term of office for each director is from the date of the Meeting at which he or she is elected until the next annual meeting or until his successor is elected or appointed. At the Meeting, a board of seven directors will be proposed for election. The enclosed form of proxy or voting instruction form permits Shareholders to vote “for” or to “withhold” their vote in respect of each director nominee. Except where authority to vote on the election of directors is withheld, the persons designated by the Corporation in the enclosed form of proxy intend to vote for the election of the seven nominees whose names are set forth below. If, due to unforeseen circumstances, any of the persons named below should not be available for election, it is intended that the persons named in the accompanying form of proxy will vote for such other person or persons as the Board may recommend. In accordance with the Corporation’s majority voting policy, unless there is a contested election, a director who receives more *withhold* votes than *for* votes, will tender his or her resignation immediately. The Governance, Nominating and Compensation Committee (the “**GNC Committee**”) will review the matter and recommend to the Board whether to accept the resignation. The director will not participate in any deliberations on the matter. In such case, the Board will publicly announce its decision within 90 days of the annual meeting. Shareholders should note that, as a result of the aforementioned majority voting policy, a *withhold* vote is effectively the same as a vote *against* a director nominee in an uncontested election.

N/A						

Notes:

- (1) Meeting attendance on special and/or other *ad hoc* committees of directors which may be formed, from time to time, to make recommendations to the Board in regard to a particular matter is not included.
- (2) Some directors are invited to attend committee meetings (of which they are not members) on a voluntary basis. Attendance at such meetings is not reflected in the meeting attendance total for 2023.
- (3) Dr. Guest was not a member of any of the four standing committees but was requested by the chair of each committee to attend the meetings of each such committee during the financial year ended December 31, 2023. At each meeting attended by Dr. Guest, the members of each committee met *in camera* without Dr. Guest.
- (4) Includes all Common Shares held by the spouse or children living in the same residence of such individual, corporations controlled by them or family trusts of such individual.
- (5) The value of Common Shares, PSUs, RSUs and deferred share units (“DSUs”) held by the directors is calculated by multiplying the amount of Common Shares, PSUs, RSUs and DSUs held by CAD\$4.85, the closing price of Common Shares on the TSX on March 27, 2024 and converted to US\$ as at March 27, 2024 CAD\$/US\$ currency exchange rate of 0.7360.
- (6) Valeura’s share ownership guidelines (the “Share Ownership Guidelines”) provide that: (a) a new director must hold three times his or her annual base retainer in Common Shares within five years of being appointed to the Board; and (b) the CEO must hold three times his or her base salary within five years of being appointed to that role. If at any time, a director’s annual retainer or an executive officer’s base salary is increased such that he or she no longer satisfies the ownership requirement, such director or executive officer is expected to satisfy the adjusted ownership requirement within three years of the date such increase takes effect. The determination as to whether a director has satisfied the applicable Share Ownership Guidelines requirement was made as of the date hereof based on the 2023 annual retainers (or base salary, in the case of Dr. Guest).
- (7) Dr. Guest is not eligible for DSUs as he is an employee of the Corporation.

- (8) The Reserves & Health, Safety, Security, Environment and Community Relations Committee was reconstituted into two committees, being the Reserves Committee and the Health, Safety and Sustainability Committee, on May 10, 2023.
- (9) Non-employee directors are not eligible for PSUs.

Corporate Cease Trade Orders or Bankruptcies

To the knowledge of management, no director of Valeura:

- (a) is, as at the date hereof, or has been, within 10 years before the date hereof, a director or chief executive officer or chief financial officer of any corporation (including Valeura) that, while that person was acting in that capacity:
 - (i) was the subject of a cease trade or similar order or an order that denied the relevant corporation access to any exemption under securities legislation, for a period of more than 30 consecutive days; or

Approval of Shareholder Rights Plan

General

On March 21, 2012, the Board adopted a shareholder rights plan (the "**Rights Plan**"). In order to remain effective, the terms of the Rights Plan requires that it be reconfirmed by Shareholders at every third annual meeting of Shareholders. Certain amendments to the Rights Plan were approved by Shareholders at the annual and special meeting of Shareholders on May 10, 2018 and the Rights Plan was last confirmed by Shareholders at the annual and special meeting of Shareholders held on May 13, 2021. Therefore, the Rights Plan must be reconfirmed by Shareholders at the Meeting or it and all outstanding Rights (as defined below)

will terminate and be void and of no further force and effect. On March 14, 2024, the Board determined that it is advisable and in the best interests of the Corporation to continue the Rights Plan. No amendments are being proposed in connection with the continuance of the Rights Plan.

A copy of the amended and restated shareholder rights plan agreement dated March 20, 2018 between the Corporation and Computershare Trust Company of Canada (the “**Amended and Restated Rights Plan Agreement**”) is available on SEDAR+ at www.sedarplus.ca and will also be made available upon request by contacting the Chief Financial Officer of the Corporation.

Purpose of the Rights Plan

The Rights Plan is designed to make sure, to the extent possible, that all Shareholders are treated fairly and equally if there is an acquisition of a controlling position in the Common Shares by any person or group of persons acting together.

The Rights Plan provides for a minimum time period during which a Permitted Bid (as defined below) must remain outstanding that aligns with the minimum deposit periods under Canadian securities laws in order to ensure that the Board is provided with sufficient time to pursue alternatives to maximise shareholder value in the event an unsolicited takeover bid is made for the Common Shares. In addition, the Rights Plan mitigates the risk of a “creeping takeover bid” where an acquiror may acquire a controlling position in the Corporation in reliance on exemptions from the takeover bid requirements and without having to make a takeover bid to all Shareholders. Such initiatives to acquire control may be structured such that they do not result in payment of an appropriate control premium or fair sharing of any control premium among all shareholders since such exemptions can permit a person to obtain such control or effective control without obtaining shareholder approval and without treating all shareholders equally.

After considering the purpose that the Rights Plan continues to serve in ensuring fair and equal treatment of Shareholders, the Board determined that it is advisable and in the best interests of the Corporation to continue the Rights Plan for another three years. This continuation of the Rights Plan is not being proposed in response to, or in anticipation of, any pending, threatened or proposed acquisition of control or takeover bid and the Rights Plan is not intended as a means to prevent a takeover of the Corporation, to secure the continuance of the management or directors in their respective offices or to deter fair offers.

Summary of the Rights Plan

The following is a summary of the principal terms of the Rights Plan, which summary is qualified by and is subject to the full terms and conditions set forth in the Amended and Restated Rights Plan Agreement. Capitalised terms used in this section, but not defined, will have the meaning ascribed thereto in the Amended and Restated Rights Plan Agreement.

Issuance of Rights

The Rights Plan provided that one right (a “**Right**”) was issued by the Corporation pursuant to the Amended and Restated Rights Plan Agreement in respect of each Voting Share outstanding as of the close of business (Calgary time) (the “**Record Time**”) on May 10, 2018. “**Voting Shares**” include the Common Shares and any other shares in the capital of the Corporation entitled to vote generally in the election of all directors of the Corporation which may be issued from time to time. One Right was also issued (and will continue to be issued) for each additional Voting Share issued after the Record Time and prior to the earlier of the Separation Time (as defined below) subject to the earlier termination or expiration of the Rights as set out in the Amended and Restated Rights Plan Agreement.

As of the date hereof, the only Voting Shares outstanding are the Common Shares. The issuance of the Rights is not dilutive and has no affect reported earnings or cash flow per share until the Rights separate

from the underlying Common Shares and become exercisable or until the exercise of the Rights. The issuance of the Rights does not change the manner in which Shareholders currently trade their Common Shares.

Certificates and Transferability

Prior to the Separation Time, the Rights will be evidenced by a legend imprinted on certificates for Common Shares issued from and after the Record Time. Prior to the Separation Time, Rights will trade together with the Common Shares and will not be exercisable or transferable separately from the Common Shares. From and after the Separation Time, the Rights will become exercisable, will be evidenced by Rights Certificates (as defined below) and will be transferable separately from the Common Shares.

Separation of Rights

The Rights will become exercisable and begin to trade separately from the associated Common Shares at the “**Separation Time**” which is generally (subject to the ability of the Board to defer the Separation Time) the close of business on the tenth trading day after the earliest to occur of:

- (a) a public announcement that a person or group of affiliated or associated persons or persons acting jointly or in concert has become an “**Acquiring Person**” meaning that such person or group has acquired Beneficial Ownership (as defined in the Rights Plan) of 20% or more of the outstanding Voting Shares other than as a result of: (i) a reduction in the number of Voting Shares outstanding; (ii) a Permitted Bid or Competing Permitted Bid (as defined below); (iii) acquisitions of Voting Shares in respect of which the Board has waived the application of the Amended and Restated Rights Plan Agreement; (iv) other specified exempt acquisitions and pro rata acquisitions in which Shareholders participate on a pro rata basis; or (v) an acquisition by a person of Voting Shares upon the exercise, conversion or exchange of a security convertible, exercisable or exchangeable into a Voting Share received by a person in the circumstances described in (ii), (iii) or (iv) above;
- (b) the date of commencement of, or the first public announcement of an intention of any person (other than the Corporation or any of its subsidiaries) to commence a takeover bid (other than a Permitted Bid or a Competing Permitted Bid) where the Voting Shares subject to the bid owned by that person (including affiliates, associates and others acting jointly or in concert therewith) would constitute 20% or more of the outstanding Voting Shares; and
- (c) the date upon which a Permitted Bid or Competing Permitted Bid ceases to qualify as such.

As soon as practicable following the Separation Time, separate certificates evidencing rights (“**Rights Certificates**”) will be mailed to the holders of record of the Voting Shares as of the Separation Time and the Rights Certificates alone will evidence the Rights. Unless the context otherwise requires, the term “Rights Certificate” shall include any other document or written acknowledgement that is evidence of registered ownership of the applicable securities as may be adopted from time to time by the Corporation, including without limitation a Direct Registration Advice.

Rights Exercise Privilege

After the Separation Time, each Right entitles the holder thereof to purchase one Common Share at an initial exercise price equal to three times the Market Price at the Separation Time (provided that a Flip-in Event has not occurred). The “**Market Price**” is defined as the average of the daily closing prices per share of such securities on each of the 20 consecutive trading days through and including the trading day immediately preceding the Separation Time. Following a transaction which results in a person becoming an Acquiring Person (a “**Flip-in Event**”), the Rights entitle the holder thereof to receive, upon exercise, such number of Common Shares which have an aggregate market value (as of the date of the Flip-in Event)

equal to twice the then exercise price of the Rights. In such event, however, any Rights beneficially owned by an Acquiring Person (including affiliates, associates and other acting jointly or in concert therewith), or a transferee of any such person, will be null and void. A Flip-in Event does not include acquisitions approved by the Board or acquisitions pursuant to a Permitted Bid or Competing Permitted Bid.

Permitted Bid Requirements

A bidder can make a takeover bid and acquire Voting Shares without triggering a Flip-in Event under the Rights Plan if the takeover bid qualifies as a Permitted Bid. The requirements of a “**Permitted Bid**” include the following:

- (a) the takeover bid must be made by means of a takeover bid circular;
- (b) the takeover bid is made to all holders of Voting Shares, other than the Offeror (as defined in the Rights Plan);
- (c) no Voting Shares are taken up or paid for pursuant to the takeover bid unless more than 50% of the Voting Shares held by Independent Shareholders (as defined in the Rights Plan): (i) have been deposited or tendered pursuant to the takeover bid and not withdrawn; and (ii) have previously been or are taken up at the same time;
- (d) no Voting Shares are taken up or paid for pursuant to the takeover bid prior to the close of business on the date that is no earlier than the earlier of: (i) 105 days following the date of the takeover bid; and (ii) the last day of the initial deposit period that the Offeror must allow securities to be deposited under the takeover bid pursuant to National Instrument 62-104 - *Take-Over Bids and Issuer Bids* (“**NI 62-104**”);
- (e) Voting Shares may be deposited pursuant to such takeover bid at any time during the period of time between the date of the takeover bid and the date on which Voting Shares may be taken up and paid for and any Voting Shares deposited pursuant to the takeover bid may be withdrawn until taken up and paid for; and
- (f) if on the date on which Voting Shares may be taken up and paid for under the takeover bid, more than 50% of the Voting Shares held by Independent Shareholders have been deposited or tendered pursuant to the takeover bid and not withdrawn, the Offeror makes a public announcement of that fact and the takeover bid is extended to remain open for deposits and tenders of Voting Shares for not less than 10 Business Days (as defined in the Rights Plan) from the date of such public announcement.

The Rights Plan also allows for a competing Permitted Bid (a “**Competing Permitted Bid**”) to be made while a Permitted Bid is in existence. A Competing Permitted Bid must satisfy all of the requirements of a Permitted Bid except that it must remain open for acceptance until the last day on which the takeover bid must be open for acceptance after the date of that takeover bid under NI 62-104.

Permitted Lock-Up Agreements

A person will not become an Acquiring Person by virtue of having entered into an agreement (a “**Permitted Lock-Up Agreement**”) with a Shareholder whereby the Shareholder agrees to deposit or tender Voting Shares to a takeover bid (the “**Lock-Up Bid**”) made by such person, provided that the agreement meets certain requirements including:

- (a) the terms of the agreement are publicly disclosed and a copy of the agreement is publicly available not later than the date of the Lock-Up Bid or, if the Lock-Up Bid has not been made prior to the

date on which such agreement is entered into, not later than the first Business Day following the date of such agreement;

- (b) the Shareholder who has agreed to tender Voting Shares to the Lock-Up Bid made by the other party to the agreement is permitted to terminate its obligation under the agreement in order to tender Voting Shares to another takeover bid or transaction where: (i) the offer price or value of the consideration payable under the other takeover bid or transaction is greater than the price or value of the consideration per share at which the Shareholder has agreed to deposit or tender Voting Shares to the Lock-Up Bid, or is equal to or greater than a specified minimum which is not more than 7% higher than the price or value of the consideration per share at which the Shareholder has agreed to deposit or tender Voting Shares under the Lock-Up Bid; and (ii) if the number of Voting Shares offered to be purchased under the Lock-Up Bid is less than all of the Voting Shares held by Shareholders (excluding shares held by the offeror), the number of Voting Shares offered to be purchased under the other takeover bid or transaction (at an offer price not lower than in the Lock-Up Bid) is greater than the number of Voting Shares offered to be purchased under the Lock-Up Bid or is equal to or greater than a specified number which is not more than 7% higher than the number of Voting Shares offered to be purchased under the Lock-Up Bid; and
- (c) no break-up fees, top-up fees, or other penalties that exceed in the aggregate the greater of 2.5% of the price or value of the consideration payable under the Lock-Up Bid and 50% of the increase in consideration resulting from another takeover bid or transaction shall be payable by the Shareholder if the Shareholder fails to deposit or tender Voting Shares to the Lock-Up Bid.

Waiver and Redemption

If a potential offeror does not desire to make a Permitted Bid, it can negotiate with, and obtain the prior approval of, the Board to make a takeover bid by way of a takeover bid circular sent to all holders of Voting Shares on terms which the Board considers fair to all Shareholders. In such circumstances, the Board may waive the application of the Rights Plan thereby allowing such bid to proceed without dilution to the offeror. Any waiver of the application of the Rights Plan in respect of a particular takeover bid shall also constitute a waiver of any other takeover bid which is made by means of a takeover bid circular to all holders of Voting Shares while the initial takeover bid is outstanding. The Board may also waive the application of the Rights Plan in respect of a particular Flip-in Event that has occurred through inadvertence, provided that the Acquiring Person that inadvertently triggered such Flip-in Event reduces its beneficial holdings to less than 20% of the outstanding Voting Shares within 14 days or such earlier or later date as may be specified by the Board. With the prior consent of the holders of Voting Shares, the Board may, prior to the occurrence of a Flip-in Event that would occur by reason of an acquisition of Voting Shares otherwise than pursuant to the foregoing, waive the application of the Rights Plan to such Flip-in Event.

The Board may, with the prior consent of the holders of Voting Shares, at any time prior to the occurrence of a Flip-in Event, elect to redeem all but not less than all of the then outstanding Rights at a redemption price of \$0.00001 per Right. Rights are deemed to be redeemed following completion of a Permitted Bid, a Competing Permitted Bid or a takeover bid in respect of which the Board has waived the application of the Rights Plan.

Protection Against Dilution

The exercise price, the number and nature of securities which may be purchased upon the exercise of Rights and the number of Rights outstanding are subject to adjustment from time to time to prevent dilution in the event of stock dividends, subdivisions, consolidations, reclassifications or other changes in the outstanding Common Shares, pro rata distributions to holders of Common Shares and other circumstances where adjustments are required to appropriately protect the interests of the holders of Rights.

Exemptions for Investment Advisors

Investment advisors (for client accounts), trust companies (acting in their capacity as trustees or administrators), statutory bodies whose business includes the management of funds (for employee benefit plans, pension plans, or insurance plans of various public bodies) and administrators or trustees of registered pension plans or funds acquiring greater than 20% of the Voting Shares are exempted from triggering a Flip-in Event, provided they are not making, either alone or jointly or in concert with any other person, a takeover bid.

Duties of the Board

The adoption of the Rights Plan will not in any way lessen or affect the duty of the Board to act honestly and in good faith with a view to the best interests of the Corporation. The Board, when a takeover bid or similar offer is made, will continue to have the duty and power to take such actions and make such recommendations to Shareholders as are considered appropriate.

Amendment

The Corporation may after the date of the Meeting (provided the Amended and Restated Rights Plan Agreement is approved by Shareholders) with the prior approval of Shareholders (or the holders of Rights if the Separation Time has occurred), supplement, amend, vary or delete any of the provisions of the Amended and Restated Rights Plan Agreement. The Corporation may make amendments to the Amended and Restated Rights Plan Agreement at any time to correct any clerical or typographical error or, subject to confirmation at the next meeting of Shareholders, make amendments which are required to maintain the validity of the Amended and Restated Rights Plan Agreement due to changes in any applicable legislation, regulations or rules.

Confirmation

The Rights Plan must be reconfirmed at every third annual meeting of Shareholders. If the Rights Plan is not approved at any such meeting of shareholders, including the Meeting, the Rights Plan and all outstanding Rights will terminate and be void and of no further force and effect.

Shareholder Approval

At the Meeting, Shareholders will be asked to pass the following ordinary resolution approving and confirming the Amended and Restated Rights Plan Agreement, subject to such amendments, variations or additions as may be approved at the Meeting:

“BE IT RESOLVED THAT:

1. the continued existence of the amended and restated shareholder rights plan agreement dated March 20, 2018 between the Corporation and Computershare Trust Company of Canada (the “**Amended and Restated Rights Plan Agreement**”) is hereby approved and confirmed and the Corporation is authorised to continue to perform its obligations under the Amended and Restated Rights Plan Agreement; and
2. any one director or officer of the Corporation is hereby authorised and directed for and in the name of and on behalf of the Corporation to execute or cause to be executed and to deliver or cause to be delivered all such documents, and to do or cause to be done all such acts and things as in the opinion of such director or officer may be necessary or desirable in order to carry out the terms of this resolution, such determination to be conclusively evidenced by the execution and delivery of such documents or the doing of any such act or thing.”

Recommendation of the Board

The Board unanimously recommends that Shareholders vote FOR the foregoing resolution.

The Rights Plan must be approved and confirmed by Shareholders at the Meeting to continue to have effect after the Meeting.

EXECUTIVE OFFICER AND DIRECTOR COMPENSATION

LETTER TO SHAREHOLDERS FROM CHAIR OF GNC COMMITTEE

Dear Shareholders,

The GNC Committee is pleased to provide an overview of the Corporation's review of executive compensation given the transformation of Valeura over the past two years and Valeura's strong performance during that period. The discussion and the "*Compensation, Discussion and Analysis*" section below sets out the Corporation's compensation philosophy and practices and how they were considered when reaching decisions regarding compensation paid to the Corporation's executives and non-employee directors.

Valeura's pivot to Southeast Asia and its transformation into a much larger operator and oil producer in Thailand prompted the Corporation to complete an in-depth review throughout 2022 and 2023 of Valeura's compensation programme in order to meet the stated objectives of the programme. In 2022 and prior years, the Corporation's compensation elements were benchmarked against international and domestic companies but was focused on TSX-listed companies. Given the transformation of the Corporation, the GNC Committee believed it was important to first determine a new 16-company international oil and gas compensation peer group (the "**2023 Compensation Peer Group**") that was more aligned with the size, operating environment and executive location of Valeura. The 2023 Compensation Peer Group was then used for the executive and director benchmarking to support compensation decisions.

The executive compensation programme restructuring in late 2022 and 2023 was guided by the GNC Committee with support from a London-based independent compensation and human resources consultant, Jane Barker, who has extensive mid-cap international oil and gas company experience. In addition to Ms. Barker, the GNC Committee also engaged Mercer International Inc. as an independent compensation consultant to assist Ms. Barker and provide independent insight to the GNC Committee to ensure the Corporation's NEOs were compensated at competitive levels in 2023 (the "**Compensation Consultant**").

Executive Compensation Restructuring

With the move of the CEO to Singapore and the hiring of several new senior executives in Singapore and Bangkok, the Corporation's executive compensation structure was modified in early 2023 to reflect executive compensation practices for international peer companies with executives domiciled outside Canada, particularly reflecting the best practices in Southeast Asia. In summary, the executive compensation programme restructuring resulted in the following revised or new policies and compensation related actions in 2023, including conversion to US\$ denominated compensation matching the reporting currency of the Corporation:

- the remuneration policy for the CEO, Chief Financial Officer ("**CFO**"), Chief Operating Officer ("**COO**"), Executive Vice President, Corporate, General Counsel and Corporate Secretary ("**EVP Corporate**") and Country Manager (collectively, the "**Executive Team**", and each an "**Executive**") was reshaped to include general matters related to compensation administration and performance appraisal, and the use of the 2023 Compensation Peer Group for benchmarking purposes;
- CEO compensation was increased, including a higher base salary effective January 1, 2023 and the grant of 2023 Unit Awards was linked to this new base salary;
- the short-term incentive programme for the Executive Team was revised to incorporate target and maximum values based on a percentage of base salary, with differentiated performance weighting between corporate and personal performance (with a heavier weighting assigned to corporate performance at the more senior executive levels);
- the long-term incentive programme was restructured as follows:

- Option grants to Executives were phased out (with the exception of grants of one-time selective sign-on Options) and replaced with Unit Awards, granted with a mix of PSUs (75%) and RSUs (25%) under the PRSU Plan;
 - target annual Unit Awards grant values were established as a percentage of an Executive's base salary;
 - PSU performance measures were established to determine the vesting levels of the three-year vesting PSUs, including a mix of relative (70%) and absolute (30%) total shareholder return metrics ("RTSR" and "ATSR", respectively), and the 2023 Performance Peer Group was developed, comprised of 19 companies and an energy index, to measure RTSR; and
 - PSUs cliff-vest after three years, however, as a transition measure only, PSUs issued to the Executive Team in 2023 vest in thirds at the first, second and third anniversaries of their grant; beginning with the 2024 grant, PSUs will vest on the third anniversary of the date of grant.
- the Corporation developed a relocation/assignment policy for Singapore, which is applicable to certain members of the Executive Team and includes allowances for relocation, accommodation, transportation and children's education, with certain of these elements phased out after three years;
 - new Executive Employment Agreements were established for the new Executives, incorporating "double-trigger" change of control termination provisions, and reflect Singapore legal requirements; and
 - the Share Ownership Guidelines were updated to reflect the Corporation's new compensation structure.

Non-Employee Director Compensation Restructuring

The compensation programme for non-employee directors was also reviewed in 2023 given the increased size and complexity of Valeura, and non-employee director compensation was benchmarked against the same 2023 Compensation Peer Group. As a result, the following changes were made with more detail provided in the "*Compensation, Discussion and Analysis*" section below:

- Annual Base Retainer (as defined below) amounts were increased effective January 1, 2023, which are to be paid with a mix of cash and equity;
- Option grants were eliminated for non-employee directors and the equity component of the Annual Base Retainer was replaced with DSU grants under the Corporation's new cash-settled deferred share unit plan (the "**DSU Plan**"); and
- Non-employee directors are required to receive a minimum of 50% of their Annual Base Retainer in DSUs until such time as the Share Ownership Guidelines are met, after which such non-employee directors are required to receive 25% of the Annual Base Retainer in DSUs, with the ability for such non-employee director to elect to receive up to 100% of their Annual Base Retainer in DSUs.

Looking Forward

Given the substantial growth in the size of the Corporation through the course of 2023, we have refreshed the compensation peer group for 2024 as more fully described in the "*Compensation, Discussion and Analysis*" section. We have also engaged Hugessen Consulting Inc. ("**Hugessen**") in February 2024 as an independent compensation consultant, who provided advice on this peer group composition and have assisted in benchmarking current executive compensation against this more relevant peer group.

On behalf of the GNC Committee, I would like to thank you for your support and look forward to your feedback as we review and refine our compensation practices to ensure they deliver competitive

compensation consistent with Valeura's short and long-term performance against our strategy to create value through growth. You can reach the GNC Committee directly at GNCC@valeuraenergy.com.

Each member of the GNC Committee will be independent director as such term is defined by National Instrument 58-101 – *Disclosure of Corporate Governance Practices*.

Compensation Approval Process

Compensation for the Corporation's executive officers is recommended by the CEO and then reviewed by the GNC Committee. Recommendations are then made by the GNC Committee to the Board for the Board's ultimate approval. In making recommendations, the CEO reviews compensation data in the oil and gas sector in the relevant markets that the executive officers reside and operate as disclosed in management information circulars, as well as other more subjective factors such as level of responsibility, importance to the Corporation, the degree to which an officer's contribution will be critical to the Corporation's success in the near and long-term, individual performance, corporate performance and market conditions. The GNC Committee then reviews and discusses these recommendations, generally including a review of market data, and determines what recommendations to make to the Board.

Following the end of each year, the GNC Committee distributes and utilises a confidential CEO feedback instrument for the directors to assess the CEO's performance, including an assessment of the CEO's performance and achievement of the targeted goals and objectives for the prior year. The results of the directors' feedback are compiled on an anonymous basis to promote candid and constructive feedback. The results are distributed to the Board and play a role in setting the CEO's total compensation, including base salary, short-term bonus and long-term equity awards. The Chairman of the Board provides feedback to the CEO on performance for the prior year and results of the CEO feedback instrument.

The Board also approves compensation for the non-employee directors of the Corporation in the form of fees and long-term equity incentives based upon recommendations made by the GNC Committee, which also takes into account the assessment of publicly disclosed data from management information circulars.

Compensation Consultants and Advisors

The executive compensation programme restructuring in late 2022 and 2023 was guided by the GNC Committee with support the Compensation Consultants.

In February 2024, the Corporation engaged Hugessen as an independent compensation consultant to provide advice to the GNC Committee and the Board on executive and director compensation matters. See “*Statement of Corporate Governance Practices*” for further information.

The table below shows the fees paid to the Corporation’s compensation consultants over the last two years:

Services Performed	Fees paid in 2023	Fees paid in 2022
Executive compensation-related fees	\$31,895	\$68,039
All other fees	\$28,145	\$12,579
TOTAL:	\$60,039	\$80,618

Compensation Philosophy

The executive compensation programme as adopted by Valeura and applied to its executive officers is designed to:

- attract and retain qualified and experienced executives who have international business and operations experience and will contribute to the success of Valeura;
- ensure the compensation of the executive officers provides a competitive base compensation package, with additional compensation to reward success and create a strong link between corporate performance and compensation; and
- motivate executive officers to enhance long-term shareholder value, with compensation being weighted toward at-risk long-term incentives in the form of security-based incentives so as to foster alignment with the interests of the Shareholders.

In support of these primary objectives compensation is split into three key components: (i) base salary; (ii) short-term incentives or bonuses, based on annual corporate performance; and (iii) Unit Awards, which are linked to share-based performance and align the executives with shareholders returns.

Compensation Peer Group

The GNC Committee believes a key element in determining executive compensation, is assessing market competitiveness. In consultation with its Compensation Consultants the GNC Committee defined a 2023 compensation peer group to benchmark the various compensation elements and total direct compensation. Companies were selected for inclusion in the compensation peer group primarily on the basis of who the Corporation competes with for talent. Keeping compensation competitive with these companies improves the Corporation’s ability to attract and retain its executive team.

Given the substantial growth of the Corporation through the course of 2023 and the relocation of the executive offices to Southeast Asia, the 2023 Compensation Peer Group has been revised, with advice from Hugessen, to assist in benchmarking current executive compensation against this updated, more relevant

peer group (the “**2024 Compensation Peer Group**”).

The Corporation used the following ranking criteria to develop the 2024 Compensation Peer Group:

- the company operates internationally outside of North America;
- the company’s business is dominated by production and cash flow (excluding exploration-only and non-producing companies);
- the company is predominantly an operator of assets and not just a non-operated partner;
- the company’s executives are domiciled overseas;
- the company is Asia focused as most relevant; and
- the company is listed on TSX, London Stock Exchange and/or Australian Securities Exchange.

As a result of the Corporation’s ranking of companies based on these criteria, the following 14-company international oil and gas compensation peer group was developed as the 2024 Compensation Peer Group. Compared to the 2023 Compensation Peer Group, five companies (Obsidian Energy Ltd., Africa Energy Corp., Falcon Oil & Gas Ltd., Pharos Energy PLC, and Touchstone Exploration Inc.) were excluded, mainly due to their exploration focus, small size, lack of operated operations, or Canada only operations. Three new international companies were added including Karoon Energy Ltd., Serica Energy Plc and Capricorn Energy Plc. Valeura is positioned near the median of this new 2024 Compensation Peer Group based on current market capitalisation and other key operational and financial metrics.

Elements of Compensation

The transformation of Valeura into a much larger operator prompted an in-depth review of Valeura’s executive compensation programme in 2022/2023. While the goals of the restructured compensation programme and elements of compensation remain unchanged, the relative weighting of these elements have been shaped to reflect the outcomes of the benchmarking work completed in early 2023 with the Compensation Consultants. This work indicated an executive compensation mix of elements different than international peers with Canada domiciled executives, with higher fixed compensation in the form of base salary, and lower variable compensation in the form of short-term incentives and Unit Awards.

Valeura’s executive compensation programme consists of four components as set forth in the following chart.

Compensation Components	Description and Purpose
<i>Base Salary</i>	A base level of income that reflects the executive’s position and level of responsibility, as well as salary norms in the sector and the general marketplace, particularly Southeast Asia.
<i>Short-term incentives</i>	A pay-at-risk component that rewards short-term performance consisting of a cash award based on the executive officer’s position and corporate and personal performance, which is designed to reward the achievement of key corporate objectives.
<i>Unit Awards</i>	An additional pay-at-risk component to compensation that rewards long-term performance by allowing executives to participate in the market appreciation of the Common Shares over an extended period. This component is also intended to create alignment with shareholders while keeping the Corporation competitive from a total remuneration standpoint and encourage executive retention through performance-based and time-based vesting of awards.
<i>Benefits</i>	Certain relocation benefits, health and dental care and various forms of life, disability, critical illness insurance, plus certain additional personal benefits for accommodation, transportation and children’s education for NEOs relocated to Singapore and Bangkok, certain elements of which are phased out after three years.

In 2023, the Corporation also changed to US\$ denominated compensation to match its reporting currency.

The GNC Committee and the Board intend that the total elements of compensation will reflect the application of their informed judgement in setting executive compensation believed to be competitive for similarly placed executives amongst the Corporation’s peers operating internationally, and in the region where the executives are domiciled.

Base Salaries

Base salary is intended to reflect an Executive’s position within the corporate structure, his or her years of experience and level of responsibility, and salary norms in the sector and the general marketplace for the region in which the executives reside and operate. In addition, the executive’s level of experience and results that they have delivered in past will guide how they are positioned against comparable executives in the compensation peer group.

The Corporation’s view is that a competitive base salary is a necessary element for retaining qualified executive officers, as it creates a meaningful incentive for individuals to remain at Valeura and not be unreasonably susceptible to recruiting efforts by the Corporation’s competitors.

NEO salaries are generally reviewed annually by the GNC Committee in the first quarter of each fiscal year. See “*NEO Compensation - Summary Compensation Table*”.

CEO Base Salary

The Board approved a base salary increase for the CEO, Sean Guest, effective January 1, 2023. This increased base salary was guided by the 2023 benchmarking analysis and in recognition of his outstanding leadership in driving the pivot to Southeast Asia, which delivered growth and value creation for Shareholders.

Other Executive Base Salaries

Starting base salaries for the new CFO, COO, EVP Corporate, and Thailand Country Manager hired through the course of 2023 were also approved by the Board and included in their Executive Employment Agreements, as shown below. Base salaries for the CEO, CFO and COO were set with a better line of sight on compensation for similar roles in companies in the 2023 Compensation Peer Group. However, base salaries for the EVP Corporate and Thailand Country Manager were developed in relation to the CFO/COO base salaries, given the lack of available comparative data.

Recruitment in a competitive marketplace for these new, experienced international executives required, in some cases, one-time compensation inducements to partially replace lost benefits in leaving prior employers or foregoing other opportunities. These inducements consisted of cash and/or special Unit Awards, which are included in the Summary Compensation Table below.

Short-Term Incentives– Cash Bonus

The short-term incentive component of pay for the NEOs is dominated by the corporate performance each year. The short-term incentive model can be portrayed in the following manner based on the above components.

$$\text{Bonus Payment} = \text{Base Salary} \times \text{Bonus Target \%} \times \text{Corporate Performance Factors (0 – 2)}$$

The Corporation utilises a corporate performance scorecard to guide the award of discretionary cash bonuses. This scorecard is reviewed by the GNC Committee and then recommended to the Board for approval at the start of each year and then evaluated in the first quarter of the following year. A number of key performance indicators (“**KPIs**”) are established with a range of outcomes and a weighting applied to each KPI. These KPIs are determined by the executive and Board as the key deliverables that will drive both the long term and immediate success of the Corporation. Results are aggregated at the end of each performance period to yield a corporate performance factor (“**CPF**”) ranging from 0 to 2. This CPF, when applied to individual executive’s base salary and Target Bonus yields the annual cash bonus.

The Board, on the recommendation of the GNC Committee, may apply discretion to the scorecard results, both positive and negative within the scoring range above, taking a holistic view of corporate performance.

The following target and maximum short-term incentive targets as a percentage of base salary for the executive officers are shown below.

Position	Target Bonus	Maximum Bonus
CEO	62.5%	125%
CFO/COO	50%	100%
EVP	40%	80%
Other Executive Team members	40%	80%

2023 Corporate Performance Scorecard

The Board approved the 2023 corporate performance scorecard in March 2023 following the closing of the Mubadala Acquisition. It was comprised of four broad categories with the following weightings:

- Shareholder return (20%);
- Delivery of key operational targets (40%);
- Continuous improvement in health and safety and sustainability (20%) and;
- Support growth of the Corporation (20%).

Performance Peer Group

The shareholder return KPI in the scorecard is determined by measuring the Corporation’s relative ranking of total shareholder return for the year against a 19-company and one index peer group (the “**2023 Performance Peer Group**”). In addition, this peer group is also used for the evaluation of the Corporation’s relative share price performance, together with Valeura’s absolute share price performance, for determination of the relevant vesting of the PSUs granted in 2023, as noted in the following paragraphs.

The 2023 Performance Peer Group, as disclosed in the Corporation's 2023 management information circular is shown below.

Given the rapid pace at which the Corporation's business has pivoted to Southeast Asia, and the potential for further evolution as a result of targeted organic and inorganic growth, the Board expects to adjust the performance peer group on periodic basis, so as to best reflect the Corporation's strategic focus, geographic orientation, size, and corporate growth trajectory, among other criteria.

Based on delivery against the 2023 Corporate Performance Scorecard, and combing the score for each of the above elements yielded a CPF of 1.46 out of a maximum possible score of 2. This CPF of 1.46 was applied to short-term incentive target levels and base salaries as of year-end 2023 on the basis described above and the resulting cash bonuses were approved by the Board on March 14, 2024. For the NEOs, the bonus amounts for 2023 are shown in the compensation summary table. See “*NEO Compensation - Summary Compensation Table*”.

Long-Term Incentives

The Corporation believes that long-term performance and increases in shareholder value are achieved through an ownership culture that encourages executive performance through the use of at-risk long-term incentives. Long-term incentives are required in order for the Corporation to be competitive from a total remuneration standpoint when compared to those of larger companies in the oil and gas industry with whom it must compete for experienced executive officers. Accordingly, the Corporation established the Option Plan and the PRSU Plan to provide employees, including executive officers, with incentives to help align those employees’ interests with the performance of the Corporation as reflected in the Common Share price. For a description of the Option Plan and the PRSU Plan, see “*Equity Plan Compensation*”.

The GNC Committee, upon the recommendation of the CEO, reviews and makes recommendations to the Board for its ultimate approval with respect to grants of Options and/or Unit Awards to executive officers. When making recommendations with respect to Option and/or Unit Awards and the size of such awards, the GNC Committee also takes into consideration the overall number of Options and Unit Awards that are outstanding relative to the number of outstanding Common Shares.

As part of the compensation programme restructuring carried out in 2023, the Corporation has made changes to equity compensation. These included the phase-out of new Option grants to executives and non-employee directors (except one-time 2023 sign-on grant of Options to selected new executives in the first

half of 2023) and the first issuance of PSUs and RSUs under the PRSU Plan. The Board believes these changes better reflect best practices in executive and non-employee director compensation.

PSU awards granted under the PRSU Plan for the 2024 and future awards will cliff-vest at the end of a three-year measurement period. As a transition measure only, the initial 2023 PSUs granted in 2023 will be vested in thirds on the first, second and third anniversaries of the award date to provide some continuity in the vesting schedule of Unit Awards with the change from annual Option awards. With the exception of the 2023 PSUs, the PSU performance measures will have a measurement period of three consecutive fiscal years commencing with the beginning of the year in which the PSU grant occurs, typically in March for existing grantees at that time. RSUs will vest based on time only in thirds at the first, second and third anniversary of the award date.

Performance measures for the PSUs are linked to Common Share price performance over the three-year period including both RTSR and an ATSR. For PSUs the weighting is 70% on RTSR and 30% on ATSR. Each year the agreed performance peer group will be used in measuring RTSR and while the desire is to maintain this group for the entire three-year period, it is recognised that change may be required.

ATSR (Percentage Increase Over Three Fiscal Year Performance Period)	% of PSU Award That Vests (Subject to the ATSR Performance Measure)
Less than 15%	Zero
15% - Threshold	30%
45% or more – Maximum	100%
Between 15% and 45%	Straight line increase from 30% to 100%

RTSR (Percentile Ranking Relative to the Performance Peer Group)	% of PSU Award That Vests (Subject to the RTSR Performance Measure)
Less than P25 Threshold	Zero
P50 Target	50%
P75 Maximum	100%
Between P25 and P75	Straight line increase from 0% to 100%

Long-term incentives Administration

In administering the PRSU Plan, the Corporation will provide executives with a mix of PSUs (75%) and RSUs (25%) and has established target and maximum values for these Unit Awards as a percentage of base salary.

Under the new compensation programme, the number of Unit Awards granted to each executive will be based on a percentage of base salary at the grant date, excluding any and all additional allowances and benefits. The number of Unit Awards granted represent a maximum number of Unit Awards eligible to vest. For RSUs the vesting is only dependent on time and the total units that vest is expected to be the same as those awarded. However, the number of PSUs that vest is dependent on performance under the PSU criteria and the ultimate level of vesting can range from 0% to 100%. The target award for PSUs is 50% of the maximum award.

The Unit Award value percentage levels and award terms can be modified by the Board on the recommendation of the GNC Committee. The Unit Award values by position in the organisation for the 2023 Unit Awards are shown in the table below.

Position	Maximum Unit Award	Target Unit Award (% of Base Salary)		
		Total Units	RSU	PSU
CEO	125%	78.125%	31.25%	46.875%
CFO/COO	100%	62.5%	25%	37.5%

One-time awards in 2023

Recruitment in a competitive marketplace of experienced international executives, in some cases, required one-time compensation inducements to partially replace lost benefits or unvested long-term incentives associated with prior employers. These inducements, including one-time additional Option grants and/or RSU grants and cash awards, are included in the “*Summary Compensation Table*” that follows, and are summarised below:

- Greg Kulawski, the new COO, was provided a one-time, sign-on cash award of \$100,000 and a grant of RSUs valued at \$350,000 on his start date of July 17, 2023;
- Kelvin Tang, the new EVP Corporate, was provided with a one-time, sign-on grant of 250,000 Options with a fair value of \$313,356 on his start date of February 1, 2023 (see “*NEO Compensation - Summary Compensation Table*” for details); and
- Ian Warrilow, Thailand Country Manager, was provided with a one-time sign-on grant of 150,000 Options with a fair value of \$176,198 on his start date of April 24, 2023 (see “*NEO Compensation - Summary Compensation Table*” for details).

During the year ended December 31, 2023, 1,499,433 Unit Awards (PSUs and RSUs) were granted for the first time under the PRSU Plan. RSUs will vest in thirds over three years based on time only. Under the PRSU Plan, PSUs are subject to continued employment and to certain performance conditions being met. PSUs granted in 2023 will vest over three years up to one-third each year, while PSUs issued in 2024 and beyond will cliff vest at the end of a three-year period, based on a calculation of comparative total shareholder return performance metrics, as described above.

Benefits

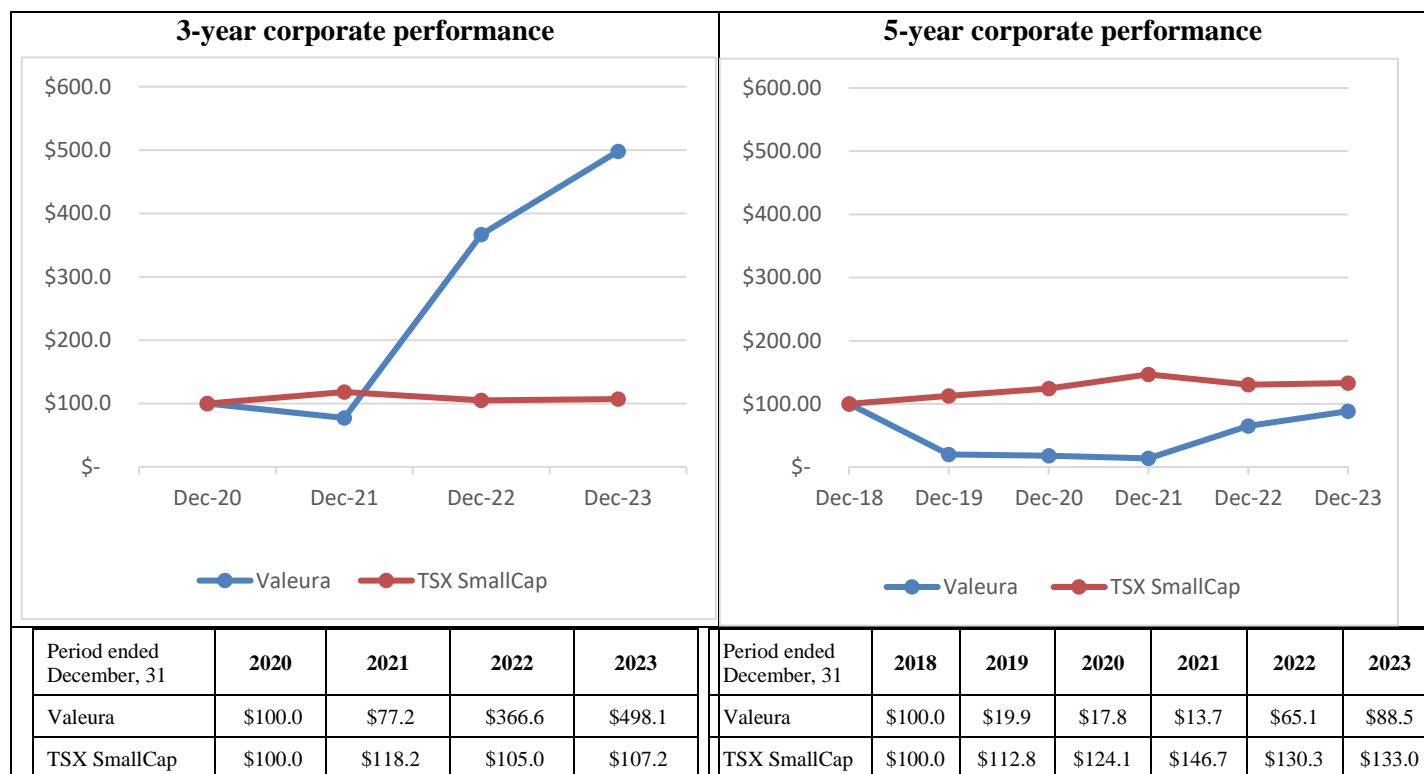

For 2023, the Corporation’s benefits programme consisted of:

- health and dental care and various forms of life, disability and critical illness insurances and health spending accounts consistent with industry practice;
- Calgary-based NEOs received reimbursements for parking costs up to a defined limit or a transportation allowance in lieu of parking;
- Executives relocating to Singapore and Bangkok received other customary for relocation allowances such as moving allowances, accommodation allowances and children’s education.

Corporate Performance

Valeura has been delivering strong growth to shareholders over the past three years and continues to be one of the top performing oil and gas companies. The following graph illustrates the cumulative return to Shareholders of a \$100 investment in Common Shares from (i) December 31, 2020; and (ii) from December 31, 2018; to December 31, 2023, as compared to the cumulative total return on the Standard & Poor's/TSX SmallCap Index (“**TSX SmallCap**”) for the same periods, assuming the reinvestment of cash distributions and/or dividends.

The chart below shows the performance data for both 3-year and 5 -year data periods.

The Options vest in thirds, on April 24th, 2024, April 24th, 2025 and April 24th, 2026. Accordingly, none of these Options had vested as at December 31, 2023.

Compensation Risk Mitigation

The Corporation does not believe that its compensation programmes encourage excessive or inappropriate risk taking as: (i) the Corporation’s employees receive both fixed and variable compensation, and the fixed portion provides a steady income regardless of Common Share value, which allows employees to focus on the Corporation’s business; (ii) variable pay in terms of a discretionary annual bonus that is linked to short term corporate performance as measured against a Board-approved corporate performance scorecard; and (iii) the security-based compensation plans encourage a long-term perspective due to the vesting provisions of the Unit Awards and Options. The Corporation believes that its compensation programme is appropriately structured and balanced to motivate its executives and reward the achievement of annual performance goals, as well as the achievement of long-term growth in Shareholder value.

The Corporation has adopted an anti-hedging policy which prohibits any NEO or director from purchasing financial instruments designed to hedge or offset a decrease in market value of equity securities granted as compensation or held by the NEO or director.

In addition, the Corporation has adopted a Clawback Policy (as defined below) that provides for the recoupment from directors, officers and executives of both cash and equity-based incentive compensation where an individual's gross negligence, fraud, theft or willful misconduct caused them to receive an incentive compensation amount higher than what they would have otherwise received, regardless of whether there was a restatement of all or a part of the Corporation's financial statements.

Employment Agreements and Termination and Change of Control Benefits

Each current NEO (except Dr. Warrilow and Ms. Heather Campbell, who ceased to be the CFO on May 15, 2023) is a party to an executive employment agreement (the "**Executive Employment Agreements**") with the Corporation. For executives who joined the Corporation in 2023, the Corporation put in place Executive Employment Agreements consistent with market practice for executives in Southeast Asia.

Valeura has agreed pursuant to the Executive Employment Agreements that the NEOs will receive base salaries determined by the Board and may receive discretionary bonuses, grants of Options, Unit Awards and other security based compensation, reimbursement of expenses, benefits and certain perquisites as set forth in the Executive Employment Agreements, with the amounts paid in 2023 with respect to such matters set forth in the "Summary Compensation Table".

The Executive Employment Agreements provide that, upon the termination of employment without just cause, in the case of constructive dismissal, upon disability or death as defined in the amended Executive Employment Agreements, or upon a change of control of the Corporation, the NEO is entitled to receive the amount of unpaid annual salary and declared but unpaid bonuses to and including the date of termination of employment, plus:

- (a) in the case of the CEO and President, a severance payment in the amount of two times the annual salary and cost of limited benefits and two times the average amount of the bonus paid for the three calendar years prior to the date of termination; and
- (b) in the case of the CFO, COO and EVP Corporate, a severance payment in the amount of one times the annual salary and cost of limited benefits and one times the average amount of the bonus paid for the three calendar years prior to the date of termination.

The CEO and President has a "single-trigger" change of control provision in his applicable Executive Employment Agreement executed in years prior to 2020, meaning that if a change of control of the Corporation occurs, the termination payments must be made by the Corporation to the affected executive if the Corporation terminates the employment of the executive or the executive terminates its employment. The CFO, COO and EVP Corporate have, and each future executive is expected to have, a "double-trigger" change of control provision in their applicable Executive Employment Agreement, meaning that if a change of control of the Corporation occurs, the termination payments must be made by the Corporation to the affected executive only if the Corporation terminates the employment of the executive or if the executive terminates for good reason.

In addition, in the event of termination of employment for any reason, any outstanding Options or Unit Awards shall be treated in accordance with the Option Plan and the PRSU Plan.

The following table sets forth information with respect to the estimated aggregate dollar amount to which each current NEO would have been entitled if the event resulting in termination of employment occurred on December 31, 2023.

- (1) In the event of a termination for just cause, resignation or retirement, the Corporation shall have no further obligation to the NEO, other than the payment of unpaid base salary, any bonus declared but not yet paid, plus all outstanding vacation pay and expense reimbursement.
- (2) The value shown is the two-times multiple of the (i) annual cost of benefits; and (ii) average cash bonus (excluding one-offs) paid in respect of the three calendar years prior to the date of termination, being bonuses paid in the years ended December 31, 2023, 2022 and 2021.
- (3) The value shown is the one-times multiple of the (i) annual cost of benefits; and (ii) average cash bonus (excluding one-offs) paid in respect of the three calendar years prior to the date of termination, and if less than three annual bonuses have been paid over the course of employment, then the amount will be the average of annual bonus paid since the start of employment, being bonus paid in the year ended December 31, 2023.
- (4) The value of long-term incentives is calculated by multiplying the number of Options that would vest on a Change of Control by the difference between the grant price and the closing price of the Common Shares on the TSX on December 29, 2023 of CAD\$2.84, and adding the number of RSUs and PSUs (assuming a multiplier of 1.0 for performance years that are not yet complete) that would vest on a Change of Control multiplied by the December 29, 2023 closing price of the Common Shares on the TSX of CAD\$2.84, and converted to US\$ at a December 29, 2023 CAD\$/US\$ currency exchange rate of 0.7561.

Non-Employee Director Compensation

Non-employee directors are remunerated based on their expertise and time commitment provided to the Corporation.

The compensation programme for non-employee directors was also reviewed in 2023 given the increased size and complexity of the Corporation, and compensation was benchmarked against the same 2023 Compensation Peer Group used for executive benchmarking. As a result, the following changes were made:

- Annual Base Retainer amounts were increased effective January 1, 2023, contingent on closing of the Mubadala Acquisition (which closed in March 2023), to be paid with a mix of cash and DSUs; and
- Option grants were eliminated for non-employee directors and the equity component of the Annual Base Retainer was replaced with DSU grants under the DSU Plan.

In May 2023, the Board adopted the cash-settled DSU Plan, pursuant to which the Board may direct that a portion of the Annual Base Retainer for the Chairman of the Board and other non-employee directors, excluding any additional committee chair retainers, shall be received in the form of DSUs. Each non-employee director may also elect to receive all or a portion of such annual retainer in the form of DSUs that is in excess of the portion mandated to be paid in DSUs by the Board.

Prior year to 2023, non-employee directors also received additional equity awards in the form of Options under the Option Plan. In 2023, the Corporation did not issue Options to non-employee directors. See “*Summary Compensation Table*”.

For the year ended December 31, 2023: (A) the Chairman of the Board received an annual base retainer comprising cash and equity (excluding any additional committee chair cash retainers) (“**Annual Base Retainer**”) with a value of \$180,000; (B) other non-employee directors received an Annual Base Retainer with a value of \$120,000; (C) the Chair of the Audit Committee received an additional cash retainer of \$15,000; (D) the Chair of the GNC Committee received an additional cash retainer of \$12,000; and (E) the Chairs of the Reserves Committee and the Health, Safety and Sustainability Committee received an additional cash retainer of \$10,000. No additional meeting, committee member or travel fees were paid for Board and committee meeting attendance in 2023.

Of the Annual Base Retainer amount (excluding additional committee chair retainers), up to 100% is provided in the form of DSUs as elected by the director under the cash-settled DSU Plan described below, subject to some minimum DSU percentage requirement while Share Ownership Guidelines have yet to be met and lesser minimum percentage post achievement of the Share Ownership Guidelines. Any residual amount of the Annual Base Retainer above the mandated minimum DSU percentage levels as well as any additional committee chair retainers will be provided in cash.

The Share Ownership Guidelines require non-employee directors to receive at least 50% of their Annual Base Retainer in the form of DSUs until the applicable Share Ownership Guidelines requirement is met, after which non-employee directors are required to receive at least 25% of the Annual Base Retainer in the form of DSUs. For purposes of the Share Ownership Guidelines, “Annual Base Retainer” means a director’s annual base retainer, including any additional annual retainer for serving as the Chairman of the Board, but excluding any additional committee chair or committee membership retainers.

A DSU is a notional unit, equivalent in value to a Common Share, credited by means of a bookkeeping entry to an account in the name of the director. When cash dividends are paid on Common Shares, additional DSUs will automatically be granted to each director who holds DSUs on the record date for the dividends. When an eligible director no longer holds a position with the Corporation and its related entities, the non-employee director will receive a payment in cash based on the fair market value of the Common Shares represented by his or her DSUs on the director’s elected redemption date(s). Each non-employee director will have up to two elected redemption date(s) that will not be earlier than the date the director ceases to hold all positions with the Corporation and its related entities and will not be later than December 1 of the year following the year in which the non-employee director ceases to hold all positions with the Corporation and its related entities.

The number of DSUs granted is determined based on the five-day weighted average trading price of the Common Shares on the TSX at the time of grant and the DSUs are settled in cash based on the five-day

weighted average trading price of the Common Shares on the redemption date. No Common Shares will be issued under the DSU Plan.

During the year ended December 31, 2023, 224,703 DSUs were granted. The Board expects to continue to use DSUs and cash as the primary forms of director compensation for the foreseeable future.

Non-employee directors will remain eligible to receive grants of Options and RSUs, in addition to DSUs pursuant to the DSU Plan. Non-employee directors are not eligible to receive grants of PSUs. The GNC Committee recommends to the full Board compensation levels and any Options, RSUs or DSUs grants for non-employee directors, taking into account compensation data for the directors of similar companies.

Dr. Guest as an employee director did not receive any compensation as a director of the Corporation for the year ended December 31, 2023 and thus is not included in the following tables. All of Dr. Guest's compensation information is reflected under "NEO Compensation – Summary Compensation Table".

INTEREST OF CERTAIN PERSONS IN MATTERS TO BE ACTED ON

Except as disclosed in this Information Circular, management of Valeura is not aware of any material interest of any director or executive officer or any associate or affiliate of any of the foregoing in any matter to be acted on at the Meeting.

INDEBTEDNESS OF DIRECTORS AND EXECUTIVE OFFICERS

No director, proposed director, executive officer, nor any of their respective associates or affiliates, is or has been indebted to the Corporation or its subsidiaries since the beginning of the Corporation's most recently completed financial year.

SHARE OWNERSHIP GUIDELINES

The Corporation has adopted the Share Ownership Guidelines for each non-employee director, the CEO, CFO, COO and each Vice President who is an officer of the Corporation to further align the interests of directors and executive officers with those of the Shareholders. Non-employee Directors and executive officers are required to hold a number of Common Shares, DSUs, RSUs or PSUs equivalent to the value set out below:

Position	Value of Common Shares or Unit Awards to be held
Non-Employee Director	3 times Annual Base Retainer
CEO	3 times annual base salary
CFO and COO	2 times annual base salary
EVP	1 times annual base salary

Each director and executive officer must hold the relevant number of Common Shares, DSUs, vested or unvested RSUs and/or vested or unvested PSUs within five years of being appointed or elected to the Board or being hired or promoted as an executive officer, as the case may be. In the case of executive officers, PSUs are expected to be the largest component of executives' long-term incentive awards in the future. Accordingly, for the purposes of calculating the Share Ownership Guidelines ownership requirement, unvested PSUs will be valued assuming 50% vesting at target performance.

If at any time, a director’s Annual Base Retainer or an executive officer’s base salary is increased such that he or she no longer satisfies the ownership requirement, such director or executive officer is expected to satisfy the adjusted ownership requirement within three years of the date such increase takes effect.

Once a director or executive officer satisfies the applicable ownership requirement, he or she is considered to have satisfied the ownership requirement irrespective of any future share price changes. The Corporation intends to determine whether a director or executive officer satisfies the applicable ownership requirement annually on the date of the information circular for its annual shareholders meetings, or such other date as the Board may determine.

Executive officers are required to apply 30% of the after-tax value of any cash bonus amounts received by them to purchase Common Shares on the open market and retain at least 30% of the Common Shares received following the exercises of Options or the settlement of PSUs or RSUs after satisfying any applicable exercise price and withholding taxes, until their applicable ownership requirement is met.

As of the date hereof, each non-employee director and executive officer was in compliance with the Share Ownership Guidelines. With respect to the non-employee directors, Messrs. Marchant, McFarland and Hiscock have achieved the respective share ownership thresholds, Mr. Chapman, Ms. Lee and Ms. Green are all still within the relevant grace periods from their respective dates of appointment or compensation increase to satisfy the share ownership thresholds but have yet to achieve those amounts. APPENDIX “A” – STATEMENT OF CORPORATE GOVERNANCE PRACTICES

(See Attached)

STATEMENT OF CORPORATE GOVERNANCE PRACTICES

Capitalised terms used in this Appendix “A” but not otherwise defined herein shall have the meanings ascribed thereto in the Information Circular to which this Appendix “A” is appended.

The Board is committed to a high standard of corporate governance practices. The Board believes that this commitment is not only in the best interests of the Shareholders but that it also promotes effective decision making at the Board level. The Board is of the view that its approach to corporate governance is appropriate and continues to work to align with the recommendations currently in effect and contained in National Policy 58-201 - *Corporate Governance Guidelines* (“**NP 58-201**”), which are addressed below. In 2023, the Board undertook a review and assessment of the effectiveness of its corporate governance policies to acknowledge the growing importance of health, safety, sustainability and risk management matters to the Corporation. The Board revised its corporate governance practices to reflect the results of this review and assessment.

Mandate of the Board

The Board has responsibility for the stewardship of the Corporation. The Board has adopted a formal written mandate which is set out as Appendix “B” to this Information Circular. In carrying out this mandate, the Board meets regularly and a broad range of matters are discussed and reviewed for approval. These matters include overall corporate plans and strategies, budgets, internal controls and management information systems, compliance reporting, corporate communications, risk management as well as interim and annual financial and operating results. The Board is also responsible for the approval of all major transactions, including equity issuances, acquisitions and dispositions, as well as the Corporation’s debt and borrowing policies and managing conflicts of interest. The Board strives to ensure that actions taken by management correspond closely with the objectives of the Board and Shareholders.

Composition of the Board

Independence

The Board currently consists of seven directors who provide the Corporation with a wide diversity of business experience. Additional information for each of the nominee directors can be found under the heading “Meeting Matters - Election of Directors”. None of the directors are “Related” as such term is defined by the Canadian Coalition for Good Governance. Six of the current Board members (representing 71% of the Board), being Messrs. Marchant, McFarland, Hiscock and Chapman and Ms. Lee and Green are independent directors as such term is defined by National Instrument 58-101 – *Disclosure of Corporate Governance Practices* (“**NI 58-101**”). Dr. Guest, as the CEO and President, is not an independent director as that term is defined in NI 58-101. Each of the independent directors has no direct or indirect material relationship with the Corporation, including any business or other relationship, which could reasonably be expected to interfere with the director’s ability to act with a view to the best interests of the Corporation or which could reasonably be expected to interfere with the exercise of the director’s independent judgment.

The table below shows the Board and committee membership as of the date hereof following the realignment of the committee structure to establish separate Health, Safety and Sustainability and Reserves Committees, thereby increasing the number of committees to four. Subject to such directors being re-elected at the Meeting, the committee membership will remain as follows:

		Audit	Governance, Nominating and Compensation	Reserves	Health, Safety and Sustainability

James D. McFarland	2010		Chair	Member	Member

Director Term Limits and Other Mechanics of Board Renewal

The Board does not currently have any term limits or an age-based retirement policy for directors, as the Board takes the view that term limits and age-based retirement policies are an arbitrary mechanism for removing directors which can result in valuable, experienced directors being forced to leave the Board solely because of length of service or age. The Board’s priorities continue to be ensuring the appropriate skill sets are present amongst the Board to optimise the benefit to the Corporation. The Board conducts annual evaluations of the individual directors, the committees of the Board and the Chairman of the Board, which are overseen by the GNC Committee, to ensure these objectives are met. The GNC Committee regularly updates its director skills matrix and Board assessment process to ensure the Board has a robust evaluation and renewal process. The Board is targeting to bolster its skill set and to advance its Diversity Policy objectives with the appointment of a director with extensive business, community affairs and government relations experience in Southeast Asia. See “Board Assessments”.

Orientation and Continuing Education

New directors are provided with an orientation and education programme which includes written information about the duties and obligations of directors and the business and operations of the Corporation included in a comprehensive Board manual. New directors are also provided with the opportunity to review documents from recent Board meetings and to participate in meetings and discussions with senior management and other directors. Orientation programmes are tailored to meet a director's individual needs and areas of expertise.

Continuing education opportunities are directed at enabling individual directors to maintain or enhance their skills and abilities as directors, as well as ensuring that their knowledge and understanding of the Corporation's affairs remains current. Directors are kept informed as to matters which may impact the

Corporation's operations through regular reports and presentations at Board and committee meetings. Non-management directors are encouraged to, and often, attend committee meetings of which they are not members.

Ethical Business Conduct

The Board has adopted a Code of Business Conduct and Ethics (the “**Code**”), which applies to all directors, officers, employees and contractors of the Corporation. The Code includes the Anti-Corruption Policy Relating to Foreign Public Officials (the “**Anti-Corruption Policy**”), and the Audit Committee has oversight over such policy, with further reporting to and supervision by the Board as appropriate. The Code and the Anti-Corruption Policy are amended from time to time to ensure they satisfy good governance standards, changes in applicable legal requirements in relevant jurisdictions and are consistent with the ethical goals and guidelines discussed herein. A complete copy of the Code is available on SEDAR+ at www.sedarplus.com and on the Corporation's website at www.valeuraneergy.com.

The Code demonstrates the Corporation's commitment to conducting business ethically, legally and in a safe and fiscally, environmentally and socially responsible manner. It outlines a framework of guiding principles to which each employee, director, officer and contractor is expected to adhere and acknowledge, and this acknowledgement is an annual requirement.

The Code provides that directors, officers, employees and contractors must, among other things:

- (a) at all times abide by all applicable laws and respect their intent, including laws related to insider trading and reporting, anti-bribery statutes, anti-money laundering laws, and health, safety and environmental laws;
- (b) always act in the best interests of the Corporation;
- (c) avoid situations that may result in a conflict or perceived conflict between their personal interests and those of the Corporation;
- (d) provide full disclosure of any actual or potential conflicts of interest in accordance with the procedures of the Code;
- (e) maintain the confidentiality of all non-public information relating to the Corporation;
- (f) not use the Corporation's property for personal benefit;
- (g) maintain proper records and ensure compliance with internal controls and financial reporting and accounting standards;
- (h) conduct operations with (i) the aim of preventing adverse effects on the environment and local communities and safeguarding life and health, and (ii) in accordance with the UN Global Compact concerning human rights, labour, environment and anti-corruption; and
- (i) adhere to the Corporation's commitment to promote the human rights set forth in the United Nations Universal Declaration of Human Rights and the UN Guiding Principles on Business and Human Rights.

The Board monitors compliance with the Code and reviews it on at least an annual basis to determine whether updates are appropriate. Where a director or officer has any interest in or a perceived conflict

involving a contract or business relationship with the Corporation, that director or officer is excluded from all discussions and deliberations regarding the contract or relationship and such director abstains from voting in respect thereof. Directors and executive officers have disclosed to the Corporation all directorships held by such member and the existence and nature of any interests that could result in a conflict situation with the Corporation.

The Board has also adopted a Whistleblower Policy (the “**Whistleblower Policy**”) relating to the reporting of inappropriate activity to encourage and promote a culture of ethical business conduct. The Whistleblower Policy is intended to encourage and facilitate the reporting of:

- (a) questionable accounting, internal accounting controls, or auditing matters;
- (b) the reporting of fraudulent financial information to Shareholders, regulatory agencies or financial markets; and
- (c) conduct which results in a violation of law by the Corporation or in substantial mismanagement of the Corporation’s resources that, if proven, would constitute a criminal offence or reasonable grounds for dismissal of the person engaging in this conduct, without the fear of recrimination, retaliation or harassment.

Risk Oversight

One of the major responsibilities of the Board is to oversee the identification of the principal risks affecting the Corporation’s business and ensure there are systems in place to effectively identify, monitor and manage them. The Board has approved an Enterprise Risk Management Policy and Framework (the “**Risk Management Framework**”) to identify, prioritise, focus and mitigate risks impacting the Corporation. Under the Risk Management Framework, management and the Board have developed a detailed risk register (the “**Risk Register**”) describing the key areas of risk, the probability of certain events and the systems and controls in place to mitigate those risks. Each of the committees of the Board is responsible for the review and evaluation of the principal risks faced by the Corporation covered under their respective mandates and presenting their evaluation and recommendations in respect of such risks to the Board. The Board works with the Audit Committee to review insurance coverage in place for insurable risks.

The Board is responsible for oversight of the Risk Management Framework and the Risk Register, though management is responsible for specific risk identification. Management, through the Corporation’s risk manager, reports to the Board quarterly on the identification of new, emerging or increased risks and the status of risk mitigation strategies. Risks are identified in accordance with the following risk categories, though new categories may be added as necessary:

- Strategic;
- Joint Venture;
- Operations;
- Finance;
- Legal;
- ESG;
- Human Resources;
- Information Technology; and
- Country.

From this process, risks are assessed and evaluated based on the Corporation’s vulnerability to the risk and the potential impact that the underlying risks would have on the Corporation’s ability to execute its

strategies and achieve its objectives. In order to identify and address any material risks, the Board undertakes an annual assessment of the Risk Management Framework and Risk Register, in addition to receiving quarterly reports on new, emerging or increased risks. In 2023, Valeura reviewed and revised the Board's and committees' terms of reference to reflect their respective risk management responsibilities and to ensure the proper emphasis on risk identification and management at both the Board and committee level.

Nomination of Directors

The GNC Committee has the responsibility for reviewing the composition of the Board by taking into account, among other things, its size and the particular competencies and skills of its members, its alignment with the Diversity Policy (as defined below), as well as any perceived gaps in the Board's collective skill set. The GNC Committee, in consultation with the Chairman of the Board and CEO, will then identify potential Board nominees and recommend such nominees for election as directors based on the competencies and skills each new member possesses in the context of the needs of the Corporation. The Board as a whole is then responsible for nominating new directors.

The Corporation recognises that diversity is an economic driver of competitiveness for companies and it strives to promote an environment and culture conducive to the appointment of well qualified persons with diverse backgrounds so that there is appropriate diversity to maximise the achievement of corporate goals. In March 2018, the Corporation adopted a written diversity policy relating to the identification and nomination of diverse candidates for directors, executive officers and senior management appointments and promoting the consideration of criteria that promotes diversity including gender, age, ethnicity and geographic and indigenous background (the "**Diversity Policy**"). The Diversity Policy includes the gender of a potential candidate as one component in the overall list of factors the GNC Committee considers when selecting candidates for executive officer and senior manager appointments, and membership on the Board and its Board committees. While the Board has not yet decided to adopt targets for women or other diverse groups at this time, it continues to monitor diversity within the organisation and may adopt targets in the future. As part of its annual Board evaluation process, the Corporation's progress toward achieving the objectives of the Diversity Policy are reviewed and recommendations are made regarding the Diversity Policy and the manner in which it is being implemented. Following the appointment of Anna Green to the Board on January 1, 2024, 29% of the Board members are women, being Ms. Green and Ms. Lee. Following Valeura's transformation in 2023, 24% of the Corporation's executive and management teams are women.

Board Assessments

The Board is responsible for ensuring that there is a process in place for annually evaluating the effectiveness and contribution of the CEO, the Board, the committees of the Board, the Chairman of the Board and the individual directors based on their applicable terms of reference or position description.

The objective of the assessments is to ensure the continued effectiveness of the Board in the execution of its responsibilities and to contribute to a process of continuing improvement and Board renewal as appropriate from time to time. In addition to any other matters the Board deems relevant, the assessments may consider in the case of the Board or a committee, the applicable terms of reference, the applicable position descriptions, as well as the competencies and skills each individual director is expected to bring to the Board.

The GNC Committee annually reviews and makes recommendations to the Board on the method and content of such evaluations and oversees the evaluation and Board renewal process, and the committee regularly updates its evaluation materials and process. The GNC Committee has developed an annual Board effectiveness survey which includes tailored questions and, periodically, an individual director self-evaluation questionnaire and an evaluation of peer performance. The evaluation uses confidential director

questionnaires and anonymous summaries of results, which encourage candid and constructive commentary. Confidentiality of individual director comments is maintained. Every other year, the Chairman of the Board conducts individual interviews with each director to discuss the results and determine ways in which to enhance Board performance. The Chairman of the Board last conducted these interviews in 2021 and in 2023.

Areas of Expertise

Valeura maintains a skills matrix to evaluate the skill set of the Board. The intent is to ensure the Board as a whole has the range of skills, expertise and experience to fulfill the overall mandate effectively. Each director indicates his level of expertise in each area annually on a four-point scale from limited (one) to expert application (four). The directors are also asked to identify if they perceive any gaps or deficiencies in desired skill sets. The matrix helps the Corporation identify gaps and is used to search for new directors or have outside advisors provide expertise to the Board.

The GNC Committee recently reviewed the completed skills matrix and evaluations and noted that the Board, as a whole, rated its overall aggregate score for most of the categories between the skilled and expert level, with no gaps identified in any of the desired skill areas other than in Technology/Cyber Security and Diversity where the Board ranked between limited and basic working application. With respect to Technology/Cyber Security the Board intends to continue to supplement those skills with expert advisors. The Board will continue to enhance its skill sets in evolving areas and participate in Board education sessions, as well as focus on enhancing the diversity of the board. The GNC Committee is therefore satisfied that the Board has the appropriate experience and expertise at this time to ensure that each of these areas is well-addressed and the Board is performing well.

APPENDIX “D” – EQUITY PLAN COMPENSATION

(See Attached)

EQUITY PLAN COMPENSATION

The Corporation currently has two equity compensation plans in place, the Option Plan and PRSU Plan as amended and approved by Shareholders in June 2023. Both plans authorise the Board to make grants to directors, officers, employees or other services providers of the Corporation and its subsidiaries, provided that non-employee directors are not eligible to receive grants of PSUs.

In 2023, the Corporation granted Options exercisable into 550,000 Common Shares, representing 0.5% of the issued and outstanding Common Shares as at December 31, 2023. A total of 2,369,337 Options exercisable into Common Shares were exercised and 124,165 Options were forfeited and cancelled in 2023 and no Options expired. As of December 31, 2023, the Corporation had Options exercisable into 6,038,164 Common Shares outstanding, which represented approximately 5.8% of the then issued and outstanding Common Shares as at December 31, 2023.

In 2023, the Board issued 532,909 RSUs that will vest over three years at the first, second and third anniversary of the grant date and 966,524 PSUs that will vest in thirds over a three-year performance period based on the achievement of absolute and relative total shareholder return performance metrics. As of December 31, 2023, 966,524 PSUs and 532,909 RSUs had been granted under the PRSU Plan, representing approximately 1.4% of the issued and outstanding Common Shares (on a partially diluted basis) as at December 31, 2023. The Board will continue to place greater emphasis on Unit Award grants, with a higher weighting to PSUs, to better align executive compensation with shareholder value experience.

The 10% rolling limit on the number of Common Shares that may be reserved for issuance applies to the Common Shares reserved for issuance under both the Option Plan and the PRSU Plan, as well as any other security-based compensation plans of the Corporation. Accordingly, the number of Common Shares reserved for issuance pursuant to Options under the Option Plan, Unit Awards under the PRSU Plan, and under any security-based compensation arrangement of the Corporation, cannot exceed 10% of the aggregate number of issued and outstanding Common Shares on a non-diluted basis from time to time.

The “reloading” of Options is permitted under the Option Plan. If any Option is not exercised prior to expiry, or is terminated, disposed of, exercised, cancelled or surrendered for any reason, the Common Shares reserved and authorised for issuance pursuant to such Option will revert to the Option Plan and be available for other Option grants, subject to the foregoing reserve limitations. Similarly, Common Shares underlying Unit Awards that expire, terminate or are settled or cancelled will be available for subsequent issuance under the PRSU Plan.

Insider Participation Limits Under the Option Plan and the PRSU Plan

Subject to the policies of the TSX: (i) no one eligible participant can receive Options, RSUs or PSUs, that when combined with any other security-based compensation arrangement of the Corporation, will entitle the holder to more than 5% of the total number of Common Shares; (ii) the number of Common Shares reserved for issuance at any time to Insiders under the Option Plan, the PRSU Plan and any other security-based compensation arrangement of the Corporation cannot exceed 10% of the total number of Common Shares outstanding; and (iii) there may not be issued to Insiders under the Option Plan, the PRSU Plan and any other security-based compensation arrangement of the Corporation, within a 12 month period, a number of Common Shares that will exceed 10% of the total number of Common Shares outstanding at such time. The term “**Insider**” has the meaning ascribed thereto in the TSX Company Manual. In addition, both the Option Plan and PRSU Plan include the non-employee director participation limits whereby the aggregate value of all Options, RSUs and any other awards that may be granted to any one non-employee director in any one year period under all security-based compensation arrangements of the Corporation may not exceed \$150,000 (with no more than \$100,000 attributable to Options) based on the grant date fair value of the

awards. The non-employee director participation limits do not apply to one-time initial grants to a new director upon joining the Board.

Option Plan

Commencing in 2023, the Board placed a greater emphasis on Unit Award grants, as opposed to Options, with a higher weighting to PSUs to better align executive compensation with shareholder value.

Purposes of the Option Plan

The Option Plan is intended to achieve a number of objectives through the grant of Options including:

- retaining and attracting qualified directors, officers, employees and consultants;
- promoting a proprietary interest in the Corporation;
- providing a long-term incentive element in compensation; and
- promoting profitability of the Corporation and its subsidiaries.

Administration

The Option Plan is administered by the Board. The Board can delegate the administration of the plan to a committee of directors. Subject to the Shareholder approval requirements, the Board has the discretion to interpret the provisions of the Option Plan and to prescribe, amend, rescind and waive rules and regulations to govern the administration and operation of the Option Plan.

Vesting

The vesting of an Option granted under the Option Plan will be as determined by the Board when such Option is granted; however, Options generally vest as to one third on each of the first, second and third anniversaries of the grant date.

Term and Black-out Periods

Under the Option Plan, all Options will be for a term as determined in the discretion of the Board at the time of the grant, provided that no Options will have a term exceeding 10 years.

The Option Plan also allows for the extension of the expiry date for an Option expiring during a black-out period imposed by the Corporation. In the event that the expiration date of an Option falls within such a black-out period or within five business days after a black-out period, the expiry date of such Options will be extended to be 10 business days after the black-out period ends, provided that in no case will such extension create an Option having a term exceeding 10 years.

Exercise and Exercise Price

Subject to the policies of the TSX and any limitations imposed by any relevant regulatory authority, the exercise price of an Option granted under the Option Plan will be as determined by the Board when such

Option is granted and will be an amount at least equal to the last per Common Share closing price of the Common Shares on the TSX before the date of grant of an Option.

In addition to cash, the Option Plan allows, subject to the approval of the Corporation, Option holders to pay for the aggregate exercise price of vested Options pursuant to a broker-assisted cashless exercise, whereby the optionee (or its representative) elects to receive: (a) an amount in cash equal to the cash proceeds realised upon the sale in the capital markets of the Common Shares underlying the vested Options by a securities dealer designated by the Corporation, less the aggregate exercise price, any applicable withholding taxes and any transfer costs charged by the securities dealer to sell the Common Shares; (b) an aggregate number of Common Shares that is equal to the number of Common Shares underlying the vested Options minus the number of Common Shares sold in the capital markets by a securities dealer designated by the Corporation as required to realise cash proceeds equal to the aggregate exercise price, any applicable withholding taxes and any transfer costs charged by the securities dealer to sell the Common Shares; or (c) a combination of (a) and (b). All Common Shares issued in accordance with the foregoing are issued as fully paid and non-assessable Common Shares, following which the optionee will have no further rights, title or interest with respect to the exercised Options.

Ceasing to be a Director, Officer, Employee or Consultant

The Option Plan gives the Board discretion when granting Options to determine whether Options may be exercised at all or for a limited period of time following an optionee ceasing to be an employee, officer, director or consultant for any reason other than death. In the event of the death of an optionee, vested Options held by such optionee shall be exercisable for a period not exceeding 12 months following the death of the optionee.

All Options granted under the Option Plan since August 12, 2020 are subject to a change of control provision providing for “double-trigger” acceleration of Option vesting (as opposed to “single-trigger” acceleration on Options granted prior to August 12, 2020). Accordingly, if a holder of new Options ceases to be an officer or employee of the Corporation or a subsidiary as a result of being terminated by the Corporation or a subsidiary on a without cause basis or resigns in circumstances constituting good reason, a director ceases to be a member of the Board, or a consultant’s services are terminated by the Corporation or a subsidiary unless due to consultant’s breach of contract or arrangement with the Corporation or subsidiary, in each case, on or within 12 months following the effective time of a Change of Control Transaction and before the expiry of the holder’s Options, all unvested Options on the holder’s cessation date will immediately vest and be exercisable for 12 months following the cessation date. At the end of the 12 month period or such shorter time as is remaining in the term of the Options, the unexercised Options will automatically terminate and be of no further force or effect.

Change of Control Transactions

The Option Plan provides that in the event of a Change of Control Transaction, the surviving, successor or acquiring entity will assume any outstanding Options or will substitute similar stock options for the outstanding Options. If the surviving, successor or acquiring entity does not assume the outstanding Options or substitute similar stock options for the outstanding Options or if the Board otherwise determines in its discretion, the Corporation will give written notice to all Option holders advising that the Option Plan will be terminated effective immediately prior to the effective time of the Change of Control Transaction and all Options will be deemed to be vested and, unless otherwise exercised, forfeited or cancelled prior to the termination of the Option Plan, will expire immediately prior to the termination of the Option Plan.

In the event of a Change of Control Transaction, the Board has the power to:

- (i) make such other changes to the terms of the Options as it considers fair and appropriate in the circumstances, provided such changes are not adverse to the Option holders;
- (ii) otherwise modify the terms of the Options to assist the Option holders to tender into a takeover bid or other arrangement leading to a Change of Control Transaction, and thereafter; and
- (iii) terminate, conditionally or otherwise, the Options not exercised following successful completion of such Change of Control Transaction.

If the Change of Control Transaction is not completed within the time specified therein (as the same may be extended), the Options which vest pursuant to the foregoing Change of Control Transaction provisions will be returned by the Corporation to the Option holder and, if exercised, the Common Shares issued on such exercise will be reinstated as authorised but unissued Common Shares and the original terms applicable to such Options will be reinstated.

All outstanding Options granted prior to August 12, 2020 remain subject to a “single-trigger” acceleration of Option vesting in connection with a Change of Control Transaction (unvested Options will vest at the time of a Change of Control Transaction).

Adjustments

The Option Plan gives the Board discretion to make adjustments to Options to prevent substantial dilution or enlargement of the rights granted to Option holders in the context of certain specified corporate events.

Amendments and Termination

The Corporation retains the right to amend from time to time, suspend, terminate or discontinue the terms and conditions of the Option Plan by resolution of the Board. Any amendments will be subject to the prior consent of any applicable regulatory bodies, including the TSX, as may be required. Any amendment to the Option Plan will take effect only with respect to Options granted after the effective date of such amendment, provided that it may apply to any outstanding Options with the mutual consent of the Corporation and the Option holder.

The Option Plan contains provisions specifically outlining amendments to the Option Plan which may be made by the Board without and with the further approval of Shareholders.

Other than amendments requiring Shareholder approval as described below, the Board has the power to approve amendments relating to the Option Plan or Options issued thereunder, without further approval of the Shareholders, including without limitation to the extent that such amendment:

- is for the purpose of curing any ambiguity, error or omission in the Option Plan or to correct or supplement any provision of the Option Plan that is inconsistent with any other provision of the Option Plan;
- is necessary to comply with applicable law or the requirements of the TSX or any other stock exchange on which the Common Shares are listed;
- is an amendment respecting administration and eligibility for participation under the Option Plan;
- alters, extends or accelerates the terms of vesting applicable to any Options;

- is an amendment to the termination or early termination provisions of the Option Plan or any Option, whether or not such Option is held by an Insider, provided such amendment does not entail an extension beyond the original expiration date;
- includes or modifies a cashless exercise feature, payable in cash or Common Shares, which provides for a full deduction of the number of underlying Common Shares from the Option Plan maximum;
- is necessary for Options to qualify for favourable treatment under applicable tax laws;
- is an amendment to the Option Plan of a “housekeeping nature”; or
- is an amendment necessary to suspend or terminate the Option Plan.

Shareholder approval will be required for the following types of amendments:

- an amendment to increase the maximum number of Common Shares issuable under the Option Plan, other than pursuant to certain adjustments as described above;
- an amendment that increases the limits previously imposed on non-employee director participation;
- an amendment to the amendment provisions;
- an amendment that would allow for the transfer or assignment of Options, other than for normal estate settlement purposes;
- an amendment extending the term of an Option beyond the original expiration date, except in connection with a black-out period as described above;
- any amendment to the Option Plan that increases the length of the period after a black-out period during which Options may be exercised;
- an amendment to change the class of eligible participants to the Option Plan which would have the potential of broadening or increasing participation by Insiders, including any amendment to remove or to exceed the insider participation limits as described above;
- any amendment which would result in the exercise price for any Option granted under the Option Plan being lower than the fair market value at the grant date of the Option;
- any amendment which reduces the exercise price of an outstanding Option or allows for the cancellation and reissuance of an Option, which would be considered a repricing under the rules of any stock exchange on which the Common Shares are listed, in each case, other than pursuant to a Change of Control Transaction or certain adjustments as described above;
- an amendment to add any form of financial assistance by the Corporation for the exercise of any Option; and

- an amendment required to be approved by security holders under applicable law or the rules, regulations and policies of any stock exchange on which the Common Shares are listed.

The amendment provision explicitly requires that Shareholder approval be sought for each of the applicable amendments listed above.

Clawback

Options are subject to the Clawback Policy described below.

Non-Assignability

The Options are not transferable or assignable, except for a limited right of assignment on the death or incapacity of an optionee.

Burn Rate

The annual burn rate of Options granted under the Option Plan in respect of: (i) fiscal year 2023 was 0.55%; (ii) fiscal year 2022 was 2.17%; and (iii) fiscal year 2021 was 2.67%. The “annual burn rate” is the number of Options granted under the Option Plan during the applicable fiscal year divided by the weighted average number of Common Shares outstanding for the applicable fiscal year.

PRSU Plan

Purposes of the PRSU Plan

The principal purposes of the PRSU Plan are: (i) to strengthen the ability of the Corporation to attract and retain qualified directors, officers, employees and consultants which the Corporation and its subsidiaries require; (ii) to encourage the acquisition of a proprietary interest in the Corporation; and (iii) to focus management of the Corporation and its subsidiaries on operating and financial performance and total long-term Shareholder return by providing an increased incentive to contribute to the Corporation’s growth and profitability.

Administration of the PRSU Plan

The PRSU Plan will be administered by the Board. Subject to Shareholder approval requirements, the Board will have the authority to make Unit Awards, to determine to whom and the times at which Unit Awards will be granted, to determine the fair market value of the Common Shares in accordance with the terms of the PRSU Plan, to determine the number of PSUs and/or RSUs to be awarded pursuant to each Unit Award, to determine the vesting conditions, vesting schedules, settlement dates, terms, limitations, restrictions and conditions applicable to the Unit Awards, to prescribe, amend and rescind rules and regulations relating to the PRSU Plan, to interpret the PRSU Plan, to determine the terms and provisions of Unit Award Agreements (as such term is defined in the PRSU Plan) and to make all other determinations deemed necessary for the administration of the PRSU Plan. The Board can delegate the administration of the plan to a committee of directors. The Board has the discretion to interpret the provisions of the PRSU Plan and to prescribe, amend, rescind and waive rules and regulations to govern the administration and operation of the PRSU Plan.

Vesting

The vesting date(s) for PSUs and any adjustment (upward or downward) to the number of PSUs that vest by the application of a Performance Factor (as such term is defined in the PRSU Plan) will be determined at the discretion of the Board.

The vesting of RSUs is solely time-based as they will vest over a period of time determined at the discretion of the Board.

Black-out Periods

The PRSU Plan also allows for the extension of the vesting date for a Unit Award during a black-out period imposed by the Corporation. In the event that the vesting date of a Unit Award falls within a black-out period or within five business days after a black-out period, the vesting date of such Unit Award will be extended to 10 business days after the black-out period ends; provided that the settlement date of any such Unit Award cannot be extended later than December 31st of the third year following the year in respect of which the Unit Award was granted.

Eligibility and Award Determination

In accordance with the terms of the PRSU Plan, Unit Awards may be granted to employees, officers, directors or consultants of the Corporation or a subsidiary (individually, a “**Service Provider**” and collectively, “**Service Providers**”), provided that non-employee directors are not eligible to receive grants of PSUs.

In determining the Service Providers to whom Unit Awards may be granted and the number of PSUs and/or RSUs to be awarded pursuant to each Unit Award, the Board may take into account any of the following factors: (i) compensation data for comparable benchmark positions among the Corporation’s competitors; (ii) the duties and seniority of the Service Provider; (iii) corporate performance measures of the Corporation for the most recently completed fiscal year; (iv) individual and/or departmental contributions and potential contributions to the success of the Corporation; and (v) such other factors as the Board deems relevant in connection with accomplishing the purpose of the PRSU Plan.

Dividends

Under the terms of the PRSU Plan, in the event that the Corporation pays dividends on the Common Shares (including in additional Common Shares) following the granting of a Unit Award, the number of all PSUs and RSUs credited to the grantee’s Performance Account (as defined in the PRSU Plan) will be increased pursuant to the terms of the PRSU Plan.

Settlement of Unit Awards

Payment in respect of vested Unit Awards is generally made by delivering Common Shares to the grantee on the applicable settlement date. The aggregate number of Common Shares to be delivered pursuant to a vested Unit Award will be equal to the whole number of Unit Awards that have vested (subject to the satisfaction of applicable withholding taxes).

Notwithstanding the foregoing, the Board may elect, in its sole discretion, to pay to any grantee of a vested Unit Award in lieu of delivering all or any part of the Common Shares that would be otherwise delivered to the grantee on such settlement date, a cash amount equal to the aggregate fair market value of such

Common Shares that would otherwise be issued on the applicable settlement date, less any applicable withholding taxes.

No fractional Common Shares will be delivered pursuant to the PRSU Plan, nor will any cash be paid at any time in lieu of any such fractional interest.

Termination of Relationship as Service Provider

In the event that a grantee of a Unit Award is terminated by the Corporation or a subsidiary (whether for cause or without cause), all outstanding Unit Award Agreements (as such term is defined in the PRSU Plan) and unvested Unit Awards held by such grantee will be terminated and all rights to receive Common Shares thereunder will be forfeited. In the event that a grantee of a Unit Award ceases to be a Service Provider for any reason other than due to a termination by the Corporation or a subsidiary or the disability or death of such grantee, all Unit Award Agreements (as such term is defined in the PRSU Plan) and all unvested Unit Awards will be terminated and all rights to receive Common Shares thereunder will be forfeited as of the last day of any notice period applicable in respect of such cessation of services. In the event of the disability or death of the grantee, the vesting of all unvested Unit Awards will be accelerated as of the date of the grantee's death or as of the date of the determination of disability, as applicable, provided that the Board, taking into account the performance of the Corporation and the grantee, may determine the Performance Factor to be applied in determining the number of PSUs which will vest, and all such vested Unit Awards will be settled on the settlement date.

Notwithstanding the foregoing, if a grantee ceases to be: (i) an officer or employee of the Corporation or a subsidiary as a result of being terminated on a without cause basis or resigns in circumstances constituting good reason; (ii) a member of the Board; or (iii) a consultant of the Corporation or a subsidiary as a result of being terminated by the Corporation or a subsidiary unless due to the consultant's breach of contract or arrangement with the Corporation or a subsidiary, in each case, on or within 12 months following the effective time of a Change of Control Transaction, (a) all PSUs held by the grantee that have not yet vested as of such time multiplied by the applicable Performance Factor(s) will vest and be settled on the grantee's cessation date, and (b) all RSUs held by the grantee that have not yet vested as of such time will vest and be settled on the grantee's cessation date. The number of PSUs which are deemed to be vested will be determined by the Board, in its sole discretion, having regard to the level of achievement of the Performance Factor(s) prior to the grantee's cessation date.

Change of Control Transactions

Notwithstanding any other provision of the PRSU Plan, in the event of a Change of Control Transaction (as such term is defined in the PRSU Plan), the surviving, successor or acquiring entity will assume any outstanding Unit Awards or will substitute similar share units for the outstanding Unit Awards. If the surviving, successor or acquiring entity does not assume the outstanding Unit Awards or substitute similar share units for the outstanding Unit Awards or if the Board otherwise determines in its discretion, the Corporation will give written notice to all grantees advising that the PRSU Plan will be terminated effective immediately prior to the effective time of the Change of Control Transaction and all RSUs and a specified number of PSUs will be deemed to be vested and, unless otherwise settled, forfeited or cancelled prior to the termination of the plan, will be settled immediately prior to the termination of the plan. The number of PSUs which are deemed to be vested will be determined by the Board, in its sole discretion, having regard to the level of achievement of the Performance Factor(s) prior to the effective time of the Change of Control Transaction.

In the event of a Change of Control Transaction, the Board has the power to: (i) make such other changes to the terms of the Unit Awards as it considers fair and appropriate in the circumstances, provided such

changes are not adverse to the grantees; (ii) otherwise modify the terms of the Unit Awards to assist the grantees to tender into a takeover bid or other arrangement leading to a Change of Control Transaction, and thereafter; and (iii) terminate, conditionally or otherwise, the Unit Awards not settled following successful completion of such Change of Control Transaction. If the Change of Control Transaction is not completed within the time specified therein (as the same may be extended), the Unit Awards which vest pursuant to the foregoing will be returned by the Corporation to the grantee and, if settled the Common Shares issued on such settlement will be reinstated as authorised but unissued Common Shares and the original terms applicable to such Unit Awards will be reinstated.

Adjustments

Outstanding Unit Awards granted under the PRSU Plan may be adjusted in certain events, such as any change in the Common Shares through a reorganisation or the granting of rights to Shareholders to purchase Common Shares at prices substantially below fair market value. In these events, the PRSU Plan or any Unit Awards may be adjusted by the Board to prevent dilution or enlargement.

Amendments and Termination

Other than amendments requiring Shareholder approval as described below, the Corporation retains the right to amend from time to time or to suspend, terminate or discontinue the terms and conditions of the PRSU Plan and the Unit Awards granted thereunder by resolution of the Board. Any amendments will be subject to the prior consent of any applicable regulatory bodies, including the TSX, as may be required. Any amendment to the PRSU Plan will take effect only with respect to Unit Awards granted after the effective date of such amendment, provided that it may apply to any outstanding Unit Awards with the mutual consent of the Corporation and the grantees to whom such Unit Awards have been granted.

Pursuant to the PRSU Plan, the Board will have the power and authority to approve amendments relating to the PRSU Plan or to Unit Awards, without further approval of the Shareholders, including without limitation to the extent that such amendment:

- is for the purpose of curing any ambiguity, error or omission in the plan or to correct or supplement any provision of the PRSU Plan that is inconsistent with any other provision of the PRSU Plan;
- is necessary to comply with applicable law or the requirements of any stock exchange on which the Common Shares are listed;
- is an amendment to the PRSU Plan respecting administration and eligibility for participation under the PRSU Plan;
- changes the terms and conditions on which Unit Awards may be or have been granted pursuant to the PRSU Plan including changes to the vesting provisions of the Unit Awards;
- alters, extends or accelerates the terms of vesting applicable to any Unit Awards;
- is an amendment to the PRSU Plan of a “housekeeping nature”;
- is necessary for Unit Awards to qualify for favourable treatment under applicable tax laws;
- is an amendment to the termination or early termination provisions of the PRSU Plan or any Unit Award, whether or not such Unit Award is held by an Insider, provided such

amendment does not entail an extension beyond the original expiry date of such Unit Award; or

- is an amendment necessary to suspend or terminate the PRSU Plan.

Shareholder approval will be required for the following types of amendments:

- an amendment to increase the maximum number of Common Shares issuable under the PRSU Plan, other than pursuant to certain adjustment events described above;
- an amendment that increases the limits previously imposed on non-employee director participation;
- an amendment to the amendment provisions;
- an amendment that would allow for the transfer or assignment of Unit Awards, other than for normal estate settlement purposes;
- an amendment extending the term of a Unit Award beyond the original expiry date, except in the event of a black-out period as described above;
- an amendment to change the class of eligible participants to the PRSU Plan which would have the potential of broadening or increasing participation by Insiders, including any amendment to remove or to exceed the insider participation limits as described above; and
- an amendment required to be approved by security holders under applicable law or the rules, regulations and policies of the TSX.

The amendment provision explicitly requires that Shareholder approval be sought for each of the amendments listed above.

Clawback

Unit Awards are subject to the Clawback Policy described below.

Burn Rate

The annual burn rate of Unit Awards granted under the PRSU Plan in respect of fiscal year 2023 was 1.51%. No Unit Awards were granted under the PRSU Plan during the 2022 or 2021 fiscal years.

Non-Assignability

All rights to receive Common Shares, or cash equivalents, pursuant to a Unit Award granted to a Service Provider may only be exercised by such Service Provider personally (except in the event of the death of the grantee of a Unit Award, in which case, Common Shares or cash may be delivered to the grantee's estate or designated beneficiary).

Clawback Policy

On May 11, 2020, the Corporation adopted a clawback policy (the "**Clawback Policy**") pursuant to which directors, named executive officers and other senior members of management ("**Affected Individuals**")

may be required to reimburse the Corporation for incentive compensation (being Options, Unit Awards, bonuses and such other incentive compensation as may be approved from time to time) received by an Affected Individual in excess of the incentive compensation (“**Excess Incentive Compensation**”) that he or she would have otherwise received absent erroneous financial results or performance criteria which resulted from his or her gross negligence, fraud, theft or willful misconduct. Such a clawback may apply with or without a restatement of financial results.

The Board has the authorisation to determine in its discretion, with consideration of the best interests of the Corporation, whether and through which methods it will take action to recoup any Excess Incentive Compensation. The Board is also authorised, acting reasonably and in good faith, to make a determination whether an Affected Individual has committed gross negligence, fraud, theft or willful misconduct, if no admission of such behavior is made. Such a determination is to be made following an internal investigation with the assistance of qualified, third-party financial and legal advisors.

When recovering Excess Incentive Compensation, the Board is authorised to pursue all legal and other remedies available to it. The effect of any third-party fines, penalties or damages imposed on the Affected Individual in respect of the gross negligence, fraud, theft or willful misconduct leading to the Excess Incentive Compensation will be considered by the Board, and if the Board determines it to be appropriate, credit may be given to the Affected Individual for such amounts when the Board determines the amount of the Excess Incentive Compensation to be repaid to the Corporation.

The Board believes the Clawback Policy will promote and maintain a culture of focused, diligent and responsible management and will discourage conduct detrimental to the growth of the Corporation.
